TRUSTEES OK NEW GYM

Construction of a Lifesports Center, the purchase of additional computer equipment and increases in tuition, room, and board were approved by the Albright College Board of Trustees meeting on the campus Friday, November 2.

Recognizing the need for expanded recreation opportunities and additional facilities for physical education, the trustees approved a proposed \$3.1 million 2-level structure designed by Daniel F. Tully Associates of Melrose, Mass. In addition, the trustees agreed that construction could begin as soon as one-half of the funds needed is collected, and the remaining one-half has been pledged.

The Lifesports Center is one of two major construction projects included in Phase 2 of Albright's \$5.3 million "Years of Challenge" capital campaign. The other is a \$2.5 million residence hall complex to be located on 3.5 acre tract to the north of the present campus. It was approved by the trustees last spring.

The Center, approximately 284 x 130 feet, will provide an additional 45,250 square feet of indoor practice and playing area. The new structure will consist of two major elements: a multipurpose fieldhouse with synthetic surface containing coordinate floor plans for four basketball or four tennis courts, a running oval with straightaway, provision for indoor practice for baseball, golf, and archery, and apparatus for other individual activities.

It will also contain a 2-level component in which there will be an additional four universal team rooms, four handball/racquetball courts, a mechanical equipment room, expanded physical therapy facilities, a multiuse conference/reception room, and elevator access.

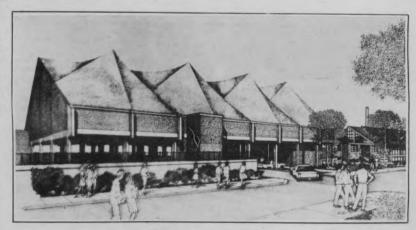

In approving this project, the trustees noted that George C. Bollman Physical Education Center was built in 1952 to accommodate a student body of 600. It no longer meets the recreation and physical education needs created by a changing lifestyle, an emphasis up on variety in physical recreation, and increased student enrollment. Projections of enrollment suggest that Albright will enter the 1990's with a student body of 1100-1200.

William R. Finch, Vice-President - Development, reported that more than \$1 063,000 was received from all sources in fiscal year 1978-79 toward the "Years of Challenge" capital campaign goal. There was \$631,000 from private gifts and \$432,000 in state and federal funds.

The 1979 Annual Fund is expected to reach \$125,000 by November 15

Dr. Samuel B. Shirk, Interim Dean and Vice-President for Academic Affairs, commented on the implementation this fall of a Self-Instructional Language Program (SLIP). SLIP is a supplemental foreign language offering which provides students an opportunity to pursue additional languages on a self-study basis. It uses native speaking persons for consultation and testing.

He reported that the Trustee Committee on Faculty and Curricula approved the continuation of the January Interim semester.

Lifesport Center

Albright's new Lifesports Center will serve today's new concepts of sport as recreation. Architect's rendering.

DANCETELLER Unique experience

Danceteller, heralded as one of the most exciting dance companies ever to emerge from Pennsylvania, will present six dances in the major dance concert to be presented by the company in the area at Albright. The Danceteller concert will take place on Friday, November 16, at 8 p.m. in the Campus Center Theater.

Danceteller, under the artistic direction of noted choreographer Trina Collins, is a troupe of six performing dancers—all of them trained in both dance and drama. Many of the works to be performed at Albright have been awarded grants for the creation of significant modern dance works.

The company was formed in 1975 under the artistic direction of Trina Collins. In the time since, the company has performed widely throughout Pennsylvania and the Eastern United States.

Trina Collins directs the dance program at Wilson College in Chambersburg, Pennsylvania, where she serves on the faculty as an Assistant Professor of Dance.

During the current 1979-80 season, Danceteller is in residence at Wilson College, Shippensburg State College, and the Capitol Campus of Penn State.

The dances to be performed at the concert have been created with the generous support of grants awarded to Danceteller by the Pennsylvania Council on the Arts in conjunction with the National Endowment for the Arts.

tional Endowment for the Arts.

The concert at Albright
has been funded in part by
a grant from the Pennsylvania Council on the Arts in
conjunction with the National Endowment for the Arts,
according to Charlotte Cunningham, Campus Center Director.

New computer faster

If all goes well, Albright computer users will soon find that computer response time has been meetly improved.

greatly improved.

The Trustees have approved the immediate purchase of a larger computer. The present 1.PU, a DEC PDP 11/45, is overwided to the point where the reponse time is often unaccepta. 2 rong.

Although the mean response time is 8 seconds, in peak periods it is significantly longer and, at its way worst, it can rise to 20 mirates.

The problem has been created by rapidly rising enrollments in the computer science curriculum and by increase administrative applications.

According to Jay Belanger, Director of the Computer Center, the college will probably replace the current installation with a DEC PDP 11/70. The new system would quadruple the main memory capacity and increase the implemented terminal capacity by 34 percent.

According to Belanger, the new equipment could be in service as early as March 1980.

The cost of the new equipment ranges from a low of \$180 thousand to a high of \$235

according to the peripheral equipment ordered in conjunction with the CDU.

The present PDP 11/45 will be used as a trade-in and is valued at about \$70 thousand.

The old IBM 11/30 system will be sold to the highest bidder. The shutdown of the IBM system will realize an annual saving of \$8,000 in maintenance contract fees. Although the PDP 11/70

Although the PDP 11/70 doubles our computer capacity, Belanger noted that the service contract for it and its peripherals is only \$20,000 per annum as compared with \$37,100 for two PDP 11/45's. This cost factor tipped the scales in favor of a shared 11/70 rather than a second 11/45 dedicated to educational users.

Albrightians vie for office

Judge W. Richard Eshelman. President Judge of the County Court

If last Tuesday's election in the Reading/Berks County area is any indication, Albrightians are a politically active group.

English professor Pat Hummel was elected to the Reading School Board. Marilyn Ruffer (Mrs. David) managed her campaign and Joan Reppert (Mrs. James) was her campaign treasurer.

Jane Bishop, wife of History professor William Bishop, is retiring as Chairman of the Reading School Board.

Mary Jo Weishampel '57 was also elected to the School Board for Reading.

for Reading.

Judge W. Richard Eshelman,
president of Albright's board of
trustees, was approved by the

voters and will continue as President Judge of the county court.

Arthur E. Saylor '57 was elected a judge of the Common Pleas

ed a judge of the Common Pleas Court. Mark J. Smolkowicz '74 was re-

elected to his seat on City Council.

Walker C. Wadsworth '73 was

Walker C. Wadsworth '73 was defeated in his bid for city council.

Scott Keller '72 lost the contest for District Attorney to George Yatron, son of Congressman Gus Yatron.

Although Wadsworth and Keller, Republicans, failed to win, both garnered a respectable number of votes in a predominately Democratic city.

Fire scorches histo lab

By Ford Turner

The crisp stillness of the October evening was pierced by the wail of a half dozen fire engines. The result was a mass convergence upon Science Hall by at least 700 people. The likes of which Albright hasn't seen in quite awhile.

They came from all directions. Their minds numbed by torturhours of midterm Students dazedly stumbled from every nook and cranny on cam-

pus. The main attraction: billowing clouds of black smoke that poured from the south and east entrances of the science building.

The fire in the histology technique laboratory of Science Hall October 22 was easily the hottest thing on campus since Jane Fonda strutted into the Bollman Center in September. The 9 p.m. blaze drew more people than a chipped beef lunch and a veal cutlet dinner combined. Although the smoke lasted less than 5 minutes, a large

gathering viewed the clean-up proceedings from various vantage points for over an hour, discussing everything from last week's Biology test to next week's keg party.

Inside the building, President Ruffer, Dr. Richard Heller and several others studied the smoldering ruins of the north wall of the lab with local fire officials, trying to come to grips with exactly what happened. The room was a shambles. The inch or so of water on the floor was covered with a film of chemical firefighting powder and the ceiling was caked with soot. The fogged face of the clock stared down from the south wall. Rather dramatically, it had stopped at 25 seconds past

Nearby, a window has been smashed by the firefighters. Across the room, in a cabinet on the west wall that had gone untouched, huge jugs of 100% alcohol, chloroform, and other highly flammable substances were a re-

minder of what could have been.
Junior Keith Hollander, a lab
technician, said the fire had started in the vicinity of a bunsen burner on the north side of the room. It had spread to several containers of parafin on the

Fire officials survey damage.

Photo by Matt Loudis

cause of the heavy smoke.

"The project in here today was blood smears," commented Dr. Heller. "This just does not make sense. We've never had any trouble in this room before.

Albright security chief Stratt Marmarou also was baffled over the cause of the blaze.

"Nobody was in the room or any of the adjacent rooms at the time of the fire," he said. "All the doors were locked and a security guard had checked them about 8:20."

While that red-eved group speculated on the cause of the fire in the choking atmosphere of the room, the crowds outside gradually dispersed. However, some

remained to watch the firefight-

"I took an organic test in the chapel less than an hour before the fire," said Biology major Bob Acello. "I was hoping the flames

would somehow reach my paper."

An Amity Street neighbor viewed the proceedings and gave his observations between long swallows from a can of beer.

"Hey, how often does something like this happen on your I mean, you need something to break up the mono-

For several hundred students on a Monday night a few weeks ago, the great lab fire of '79 did just that.

President Ruffer, R. Heller examine which defective tors believe started the fire Photo by Matt Loudis START: Alums provide job info

What would you do if you were a student with many unanswered questions about future career? Albright students no longer face this harrowing uestion thanks to the Alumni Office's START program.

START, created last spring by Linda Brown, Director of Alumni and Harriet Moskat, student intern, has been designed to answer students' career questhrough one-to-one with alumni, career nights, and informal Sunday night suppers.

Last spring, START hosted a History department career night and this year hopes to host various departmental career nights as well as numerous Sunday night suppers.

Susan Betts, this year's student intern, is pleased with the student response to the START program.

"At this time we have coordinated approximately 20 one-to-one visits, and new students continue to come in each week. I am hopeful the interest in START will continue," she said.

Chief Weinhold, Chief

The only thing an interested student must do to participate in a one-to-one visit is go to Sherman Cottage and fill out a career interest questionnaire. Susan will then research for an alumnus who will be best suited to answer the student's career questions. Once such an alumnus is found, the student is given a bio-sheet on the alumnus and it is then up to the student to make an appointment with the alumnus.

Students who have partici-pated in the program have found to be a considerable help:

"The alum gave me a good insight to the types of jobs I

could get into after graduation. very helpful," said Diane Hanson, Computer Science Major.

"My alum was terrific. We met in her office and she was very informative about her work schedule. A great start!" added Barb Ford, Business Administra-

tion Major.
"My visit was most informative. The alum talked about the various opportunities available to me in the accounting business after graduation. It was a learning experience for both of us," said Glenn Schunkewitz, an Accounting Major.

The START program has much to offer both students and alumni. The Alumni Office is hopeful that the program will continue experience more student participation.

SGA Campus-Connection

This week the SGA approved the budgets submitted by clubs. However these budgets won't be released until registration and constitutional procedures are re-

The SGA has acquired a bulletin board directly across from the Campus Center desk. This board will be called the Campus Connection and the agenda and minutes from our meetings will be posted on it.

The SGA has created two subcommittees: one will investigate establishing places on cam-pus to study after 12:00 midnight and the other will look into the hours of the sub and the possibility of student employees.

Alpha Pi

By Scott Swover

Michael Biglin, David Crosby, Thach Nguyen, Scott Swoyer and William Thompson spent more than 5 hours on Saturday, Nov 3 working at the Police Athletic League building as part of the national service day of Alpha Phi Omega.

The brothers, working under the direction of Howard Hensley, maintenance manager at PAL, painted a hallway in the building at 833 Walnut Street. They arrived at 10:30 and left at 4:00.

November 3 was the date set aside as National Service Day by Alpha Phi Omega. Each of the 601 chapters was instructed to a service project for that date.

Intern counsels students

By Scott Swover

An addition to the Albright Counseling Center this semester is Mary Lou Parsons, a candidate master of education in counseling degree from Kutztown State College. Her internship here is the "last leg" of her work on the degree.

She works as a tutor, coordinator, and personal, educational and vocational counselor. She con-ducted an assertiveness workshop yesterday, November 8. Her in

ternship requires that she gets her "feet wet in everything."

Students are encouraged to visit her for, as she says, "The more experience I get, the better it is." Her vocational philosophy is "work should be getting

paid for what you like to do."

Parsons is, like many seniors, now applying for a job. She prefers this area because her prefers husband works at the Hamburg State School and Hospital. Their home is in Lenhardtsville. "The students and supervisors are great at Albright," she says and she would not mind continuing in her present position.

Her interest in Albright pre-ceded her arrival here this fall. She chose to come here for her internship because of the positive information she had received from a former student.

Albright students are not, in her opinion, apathetic and she has been very pleased with the educational intent of most.

Student answering service

AUSTIN, TX (CPS)-Statistics show that increasing numbers of male and female college students are living together. There are no comparable surveys of how many parents of those cohabiting students know about the practice. Now, sure enough, there's a business that tries to help stude a keep parents ignorant of their sexual habits a little longer.

Pamela Douglas, a University of Texas student, conned a busi-ness called Basis Scrategy four months ago. For a fee, Austin women can use Douglas' address

as their own. Jouglas, in turn, forwards may to the daughters' correct addresses. Parents' telephone alls are recorded on a phore answering device, and Dowlas lets her clients know

when to call their parents back.
"I know there were times when I'd maybe spend five out of seven nights somewhere other than home," Douglas recalls. "I always thought it would be nice if there were a service like this available. It's better than renting half an apartment to the tune of \$150, and not even living there.

Phonathon will be held in early March. Students interested in participation should contact Steve DePaul, Box 360.

Gamma Sig

Annual Fund's Parent

by Margaret Harvey

The

The sisters of Gamma Sigma Sigma are sponsoring a campus-wide "Thanksgiving Experience," as their November service project. The sorority has received the names of 2 needy families within the Reading community for whom they will pack Thanksgiving baskets.

Students, faculty and administrators are asked to participate by donating canned goods or non-perishable food items. They may even consist of treats such as cookies and candies

Donations may be dropped off at the Campus Center desk or at the switchboard in the Administration Building between now and November 16.

The sisters encourage monetary donations to help defray the cost of turkeys which they hope to in-clude in the basket. Money may be sent to Gamma Sigma Sigma, Box 101.

The date for delivery of the Thanksgiving Baskets has been tentatively set for November 19. We urge everyone on campus to participate and to help give these families a little more for which to he thankful.

PLEDGING ENDS

It will be the final week of wearing pins and beanies, of get-ting signatures while visiting all the sisters, of 5:45 dinners and quizzes, and of painting and scrubbing for Gindy Brown, Karma Bruce, Wendy Cunliffe, Linda Duttenhofer, Dawn Hockenberry, Joanne Hymas, Mary-Ellen Itterly, Jodi Izer, Lynda Kauffman, Joann Mackinshok, Nancy Mallozzi, Nancy Malone, Lisa Metro, Geraldine Nolan, Susan Parker, Kim Ressler, Cindy Schell, Kristen Schmaltz and Joanne Siegel!

They will soon be inducted into Gamma Sigma Sigma sorority.

Volleyball season shows great team improvement

continued from back page

make mistakes knowing that there's the rest of the game to make up for it. Subs have to go into a game situation when the pinch is on and produce; they just have to jump in and play their best, sometimes trying to improve a bad situation.

"There were a few games this season," the coach went on, "that we won because of our subs. They went in when we were down and pulled us up into a winning situation."

Two of the Junior Varsity's

servers led the JV Lions to their 5-5 season. Sophomores Carrie Cram, from Avon, and Sue Culhane, from Hatboro, Pa., served as co-captains for the team. Carrie, who played in a JV spot last year, is a good setter for the team, but she is known for her serves, as is serving powerhouse Sue. Betsy Ferrari, the JV's other sophomore, from Gerardville, Pa., developed during the season into a hopeful prospect

for next year's lineup.

Six freshmen rounded up the JV's team, which also makes things look good for next year. "The improvement in the freshmen during the season was un-believable. Some of them had never played competitive volleyball and they all really improved.

Virginia Cragg, from Maple Glen, Pa., worked as a blocker for the Lions, helping the team's setters as well. Therese Donohie, from Exton, Pa., combined with Carrie Cram as the squad's best setters, while Patty Good, from Lancaster, Pa., and Wren Rodel, from Southampton, Pa., worked as hitters for the team. Patty's biggest contribution to the team was her backline returns, which set the ball up for the squad's Sandra Kacavich, setters. Princeton, NJ, and Diane Stauffer, from West Lawn, Pa., improved their overall playing abilities on the squad this year.

The biggest plus in our favor this year was team cohesion, concluded Coach Greenawalt. We played together as a team, we improved as a team. There were a lot of games where were way down and we pulled up to within a few points. Even

we lost, we showed class. "The team as a whole became more aggressive during the year. We needed that. We never won es easily and we always had fight.

WASHING ON FOCUS

by Ned Hark

Last Sunday Moslem students took over the American Embassy in Teheran, and seized 60 American hostages.

The Iranians are demanding that the United States return the deposed Shah to Iran to stand trial. The Shah is currently in a New York hospital undergoing treatment for cancer.

The United States seems to be in a position about which it can do nothing. The State Department must rely on The Iranian government to ease the situation and Ayatollah Khomeini does not seem to be cooperating. In fact, some sources indicate that the Iranian govern-

ment is, in fact, supporting the action.

President Carter has turned the matter over to his aides, feeling that a statement by him would only aggravate the problem. Military action has been deemed impossible.

What then, is the United States to do? Does it just sit back and watch 60 of our citizens and diplomatic servants be abused by mobs who will go to any extreme to attain their goals? Or do we act forcefully and show our strength?

Once more we can see the leadership problems that plague Jimmy Carter surfacing. Carter, as with the Soviet troop incident in Cuba, has shown that he is being dominated not only domestically but also on

The United States must be a tough and dominant force diplomatically. We can't permit our citizens to be brutally treated abroad. We, as the strongest nation in the world, must protect our citizens and our government servants from actions against them by a foreign power.

Carter, with a swift and successful end to this problem, would also benefit politically. At this time, he appears unable to get a good grasp on these problems. He has reached a point in his presidency where his hands are tied. He cannot make bold decisions because of possible campaign repercussions. Also, he must keep in mind that he is dealing with an economy troubled by ever present oil supply threats. However, Carter must get on top of these foreign problems or the United States will pay even more dearly in years to come

PRESS BOX

The Albright College intramural football season has been completed and it is time to recap one of the most exciting intramural seasons in recent history.

The champions are the Zeta Assassins, who were led this season by the outstanding play of Chris Seger, Dave Toporowski, and Jerry Perkins. Zeta was a team that blew away most of its opponents in the season. In the playoffs, however, it was another story. The team struggled to get by TKE. The first playoff game between the two frats resulted in a 0-0 tie. Zeta edged out TKE by a score of 6-0 in the rematch to earn a spot in the finals against the scrappy Little Rascals squad. Zeta defeated the Rascals by a 13-8 count, but not without constraints. without some anxious moments at the end of the game when quarterback Pete Hansen led his troops down to the Zeta 10-yard line. But the drive stalled there, and Zeta had its championship

The Little Rascals were the Cinderella team of the playoffs. They just qualified for the playoffs, finished fourth in the league. They promptly knocked off the previously undefeated Cotton Ponies by a 13-0 score. When he Rascals were all healthy they were very tough. Howard Green, Jean Reilly, and John Zajac form a very tough defen-sive line. Don Serzog and Steve Spinner played excellently on offensive line and Yaul Rhodes did admirably as wide receiver and defensive back. It was the inspirational play of Hansen, however, that kept this

team (Nether. . However, Cullen was AWOL for the championship, Seger took the QB controls. The senior out of Bishop Egan used timely passes to his receivers, Ken Borland and Dave Toporowski, to engineer the victory. Jerry Perkins, Brian Denneny, and Toporowski played awesome defense to aid the brothers in victory. Special recognition goes to Brian Kelly who played a marvelous game on offensive line.

The brother of Tau Kappa Epsilon, gave the Zeta's quite a scare. The strong points of this squad were the offensive and defensive lines. Griff Jones and Urban DiPasquale played good aggressive ball off the line of scrimmage. Quarterback Larry Piccioni and Paul Townsend provided needed sparks for the TKE's.

The regular season belonged to the Cotton Ponies. Led by the premier passing combination of Mike Niro to Ned Weller, the Ponies went undefeated in the regular season. The offensive line, led by Gerry Wright, Bob Lawler, and Darryl Moll gave Niro plenty of time to throw. Steve Dayno, Jeff Solar and Rick Herring proved to be one of the most respected secondaries in the league

They have offered no excuses about being outplayed by the Rascals in the playoffs. But one has got to believe that the C.P.'s will be back in the playoffs next year. With the three exceptions, all of the players will be returning to make coaches Ned Weller and Rick Goldberg talk

optomistically about next year.
In concluding this article, it is time to print the 1979 First Team All Stars for the I.M.F. League. A poll was taken among representa-tives of league teams, and there are eight players listed on both offense and defense. The offensive line is Gerry Wright (Cotton Ponies), Brian Kelly (Zeta), Tom Yednock (APO), and John Zajac (Little Rascals). The quarterback is Mike Niro (C-Ponies). The receivers are Paul Rhodes (L. Rascals), Ned Weller (C-Ponies) and Chris Seger (Zeta).

The defensive line is Doug Dailey (C-Ponies), Julio Pellegrini (Pi Tau), Urban DiPasquale and Griff Jones (TKE's). The middle linebacker is Jerry Perkins (Zeta). The defensive backs are Dave Toporowski (Zeta), Pete Hansen (L. Rascals), and Steve Dayno (C. Ponies).

The first annual I.M.F. league Most Valuable Player Award goes to Dave Toporowski, who was a vital cog in the Zeta machine – both

offensively and defensively.

LIONS TAME CIBONA

by Ford Turner

This team is well-balanced, sleek and lightning fast. They have depth, poise, and most importantly, a win in their first game together.

The 1979-80 version of the Albright basketball team manandled a disoriented Yugoslavian Cibona Club team Wednesday night, 78-74. The Lions blitzed Cibona with a 47-point first half, passsing the ball upcourt with pinpoint accuracy to find the open man on fast breaks. Albright led by as many as 18 points in the first 20 minutes, which ended with the Lions ahead,

The Yugoslavian team whittled away at the Albright lead in the second half, and went ahead by a point with less than two minutes to play. Senior guard Mike Mehler drove the length of the floor and sank a 16-foot pull-up jump shot less than 10 seconds later to put Albright on top to stay. Senior guard Billy Carey made a lay-up after a beautiful pass from junior Mike Reedy and was fouled on the play. Carey sank the free throw to put the Lions up four points with 30 seconds

Junior guard Bob Ford scored team-high 22 points for the Lions, including a variety of driving lay-ups that left the crowd hoarse. Ford also snared 10 re-bounds, as did senior center Russ McNamee

The Cibona team was lead by 6-foot 9-inch Andro Knego, a participant in the silver medal-winning Yugoslavian basketball team at the Montreal Olympics. 32 points Knego scored blocked at least five Albright shots However, his teammates, three of whom could be considered worldclass players, did not seem to play the all-around game they are

head coach Will Albright Renken attributed this to travel. The Cibona team was playing its third game in three days, having defeated the University of New Hampshire and St. Michales College by 11 points each.

"They have been traveling a lot, and I think they took us a

bit lightly," Renken said after the game. "They were standing around in the first half, and we were playing very well."

Renken was pleased with the oise his team displayed in the final minutes of the contest.

We made two or three very fine plays in the last few minutes when the game was on the line. Reedy's pass to Carey was one of them.

Carey and Ford picked up right where they left off at the end of last season. Both could be heading for All-Middle Atlantic Conference seasons. Together they shot 17 for 26 from the

The Lions will open the regular season on November 28 at Fair-leigh Dickinson-Madison,

Constantine gains 153 yards in loss

by Ford Turner

The Albright football team signed it's own obituary last Saturday with a 16-14 loss at Dela-Valley. So much for the chances at a winning season.

The Lions play their last game of the 1979 season tomorrow when a very strong Upsala team comes to Albright Stadium for the annual Pretzel Bowl game, Should they win, the Lions would have a season-end record of 4-5, or one better than last years final mark of 3-6.

The loss to Delaware Valley a heartbreaker, but Albright was ahead by 14 points at the end of the first quarter but failed to score afterwards. Sophomore running back Brian Constantine had a fine day carrying the ball, gaining 153 yards on 22 carries. Another highlight was the Lions first touchdown passing of the season, which came about when quarterback Kurt Schneider found John Simcik open for a 12-yard scoring play in the first quarter. That TD was set up by a 56yard scamper from scrimmage by Constantine.

Earlier in the first period, 28-yard line, and with 14 seconds

Mike Mullane has pounced on a Valley fumble on the Aggies' 21-yard line. Four plays later Schneider took the ball over the goal line on a three vard run.

The Aggies came back with 10 points in the second quarter. Mullen scored a 2-yard run and placekicker Gary Myers added the extra point and a 27-vard field goal later in the period.

The fourth quarter was the latest scene in what has been a muddy nightmare of a season for the Lions

The Aggies recovered an Albright fumble at the Lions 37yard line midway through the quarter. Quarterback Tom Kenny threw a 27-yard pass to Eric Reynolds who apparently caught the ball out of bounds. However, the official had taken a spill in the sea of mud and ruled that the ball had been caught in-bounds. Soon afterwards Mullen scored on another 2-yard run for the game winning touchdown.

The Lions did have a chance to win in the waning minutes of the contest. They drove the ball downfield to the Aggies' left on the clock Mike Franczak lined up to attempt a 45-vard field goal. When he approached the ball, he slipped in the mud and the kick rolled harmlessly

on the ground.
"I definitely think we were
the better team today," Albright head coach John Potsklan said after the game. "Delware Valley had the depth but we had the talent."

"It (the field goal attempt) was on a muddy part of the field. The kick was well within his (Franczak's) range." field.

The loss gave the Lions a 3-3 record in the Middle Atlantic Conference North Division as they go into the season finale with Upsula.

Steve Johansen reviews the intramural football season in his column PRESS BOX on page five.

Volleyball team logged six wins

Lady Lions conclude season

by Donna Kiddoo

Although the Women's Varsity and Jay Vee Volleyta' teams did not tally winning words this fall, they did concesse the 1979 season with the best team records in the memory of Coach Nancy Jo

The Varsity squad ended the year one game heavy on the loss with a 6-7 record, and the JV's finished at the .500 mark with and overall 5-5 record. Considering last year's 1-10 record and the winless 0-10 record from the year before that, this season was a marked improvement.

"The girls did a fine job," commented Coach Greenawalt. "They improved tremendously during the season, both as indi-vidual players and as a team."

The prospects for next year's team look good, since all but four letter-winners will be returning. If this year's upward movement continues, next year could bring the first winning season to Albright's volley ball team.

Senior co-captains Jennifer Bantley, a biology major from Hatboro, Pa., and Kathy Johnson,

history major from Clarence, NY, led the Lady Lions this year. "Jenny was probably our best all-around player," continued Coach Greenawalt, " and one of our most consistent Kathy was a steady players. player, too. They were both good captains; supportive and positive, which helped the team's playing attitude."

Seniors Sue Heffner and Roslynn Fernow will also be missed next year. Sue, the missed next year. Sue, the squad's only representative from Maryland, aided the Lions at the net with fine setting and blocking throughout the season, while Ros, from Pittsburgh, contributed consistent help to Sue and other setters with backline bumps and returns.

Allison Andrews, from Minolta, NJ, and Diane D'Alessandro, from Pottstown, Pa., were the two juniors in the starting lineup, although Mandy Jahn, a junior from Demarest, NJ, came in off the Varsity bench many times to sub for the starters. "Allison is a good hustler," the coach went on, "She's a go-getter, and she has enough enthusiasm

to psych up any team!"
"Dianna was one of our setters," Greenawalt continued." and Sue were probably the two best setters we had."

The seventh starter on the 6-starter squad was freshman Ann Marie Feick. "You only play six people," explained Coach Greenawalt, "but our starting six rotated around seven players. think everyone started about the same amount; you just can't

the same amount; you just can't pick your starting six when you have seven that deserve to play." Ann Marie, a local from Reading, was one of the team's Reading, was one of the team's hitters, showing aggression and power. "She improved a lot during the season," said Coach Greenawalt, "And she has come a long way for a freshman."

Junior Mandy Jahn and sophomores Arlene Lee and Ann Matson were subset for the Variety.

mores Arlene Lee and Ann Matson were subs for the Varsity lineup. "I've always told my teams that playing the bench is one of the hardest jobs. You don't have the chance to warm up during the game, or to

SPORTS SHORTS

WOMEN'S BASKETBALL OPENS PRACTICE

The Lady Lions held their first practice session last Monday. A total of 18 players showed up, including eight letter-winners

from last year's squad.

The team will be trying to improve on a 9-7 varsity record accumulated during an up and down season last year. The Lady Lions opened the year with four straight victories followed by four losses, a five-win string and three more losses at the end of the season.

Last season the junior varsity squad compiled a 5-2 record.

STATISTICAL LOOK AT THE LIONS

The Albright football team goes into Saturday's game Upsala with a yards-per-game rushing average of 212.1, fourth best in the MAC, while the Vikings are averaging 162.1 yards on the ground.

Individually, Brian Constantine is ranked ninth in the conference in rushing with a 72.1 yards-per-game average. Greg Holst lead the MAC with a 37.7 punting average, while Mike Franczak is eighth in scoring with 11 extra points and seven field goals for a total of 32 points.
