### Brothers and Sisters-Which?

Before you ever came to college, I bet everyone of you thought of sororities and fraternities. Yes, they usually seem to play an important part in college life. Even when we were in junior and senior high, we often thought of going to college and joining frats and sororities. There are many experiences which

are life-long memories when we join the brotherhood. Pledging is an exthe brotherhood. Fledging is an ex-perience none of us will ever forget. As humble pledges we learn a great deal. If you don't know how to take it at the beginning, you will learn before you are fluished.

The social events are usually tops, too. It seems that here at Albright our dances are the best affairs, while me of the frats have banquets which are memorable events. When the alumni return, they have great times reminiscing of events when they were in college, their period of pledgeship, the dances, the banquets, everything

great value and asset - living with great value and asset—Inving with the brothers of your frat, eating with them, and continuously being with them certainly makes your organi-zation stronger. But for the time being, the houses will have to be re-

legated to the past.

Few of us realize that there are some other values, too. High scholastic standards must be considered.

It is the object of the fraternities an intelligent conversation with and sororities to maintain a high those having a mutual interest as

ternity relationships.

# Campus Conversation

By Gene Pierce

Campus conversation is a which, I am afraid, we all view too lightly. It may even seem trite, upon first thought, to give it any consideration in an orientation program, but let us try to look at it openly

and objectively.

We are all here in college for the purpose of acquiring a well rounded education so as to better prepare ourselves for a life's work in some specific field. A vital part of this education should be gaining a knowl-edge of certain facts to enable us to fill some position or function in an organization. In addition to gain-ing a knowledge of material in the particular field we hope to enter w should be continually striving t learn more about our world in gen eral. By this I mean, more about other countries, their peoples, their customs, their governments etc. Our world is rapidly becoming too small for us to remain in our own little shell and let the rest of the world

go by.

Where could one better find a place to converse upon such subjects than right here on our campus? We have in our student body a fair cross section of citizens and with them we can intelligently talk about the things transpiring each day which are setting the stage for our

Another part of our education should be our learning to carry on plane of academic standards, as well in doing this to use the vocabulary as of fraternity life and interfraternity relationships. (Continued on Page 4)

## Heavy Snowstorm Knocks Albright For a Loop

A 13-inch snowal swept into Reading last Twosday, setting the Albright campy, as well as the en-tire city, fato an uproar. For the first time in several years, classes were uncelled on account of back to normal Saturday morning.

Meanwhile, many daystudents, not having heard the announcement of the class cancellations over the air, trudged and plowed through the snow to reach the campus. President Masters said he was amazed to see students from Hamburg and other distant places arriving here earlier than students living in the city.

Albright's new snow plow, pur-chased last spring, got its first real workout Friday with Caretaker Spatz at the helm.

# Attention, Everyone!

It was revealed Monday afternoon as The Albrightian w to press that students must be at the Northwest Junior High Gym by 6:30 p.m., when the doors open, if they wish to have seats for the highly-touted Lions-Duquesne basketball tilt Saturday night.

Eugene L. Shirk, faculty manager of athletics, released the statement to the editor of The Albrightian that it will be impossible to hold seats that evening, because the game has arouse so much interest in Reading that the bleachers will be swamped immediately after the doors are opened. Shirk also revealed that reserved seats for the game were sold out well over a

Dinner will be served in the College Dining Hall at an earlie hour to enable dorm students to reach the gym by 6:30. At-tempts are being made to secure special buses from the campus

So, be there in plenty of time, kids, for you can bet your frosh hat that the N.W. Palestra will be bursting with humanity Saturday night.

# Harbinger of Spring

After the year's biggest snowfall, we can start looking forard to things like spring fever, baseball, boid hikes, skunk day, moonlight and roses. So don't get too disgusted, kids, when you look out of your window and see muddy slush below and grey skies above, because under it all old Mother Nature is transforming this drab sight into scenes of effervescent springtime—new leaves, green grass, chirpy robins, and, ah—co-eds. If you don't feel like studying now, don't worry. Remember how, in the spring, you have that extra urge to forget the world and drown yourself in studies with nothing distracting you, except maybe an occasional glance at the blue sky to see if you should wear rubbers tomorrow or perhaps take a brisk walk on a cool, cloudy night to re-invigorate your tired mind for further study? So if your grades were a little low last semester, just tell Mom and Pop. "Wait 'til spring. You know how hard I always work in spring."

# Start Thinking Now

Although the event may be pretty much in the future, we el campus organizations should start thinking about what they are going to contribute to the Mardi Gras. The event, as you know, is sponsored and directed by the Women's Senate with other campus organizations sharing the responsibility of putting on the event. The proceeds from the Mardi Gras are to be used for some sort of campus improvement. Since everyone benefits from this it is no more than proper that they pitch in and help make it a succes

Agnes Snyder, chairman of Parents' Weekend, outlined plans for the affair at the last meeting of Stu dent Council. Friday night, May 10, the Women's Senate Mardi Gras, to be participated in by organizations on campus. On Satur-day, May 11, the traditional May Day festivities will be held, and Sat-urday night the freshmen one-acters will be presented in the College Chapel. As part of the Sunday pro-gram, the Y's will sponsor a worship program, and opportunity will be presented for parents to tour the campus and socialize with students.

Kenneth Good, president, reported on a caucus he attended last Saturday, representing the Eastern Pen sylvania colleges who participated in the Chicago student conference.

George Morforgen, president the senior class, suggested that the junior class be asked to observe the tradition of allowing seniors to pretradition or allowing seniors to pre-cede them from Chaple after assem-bly programs. It was pointed out that this is the orderly and custom-ary procedure to follow, James Brusch, president of the juniors, will report this matter to the class at the next meeting.

Absentees at the Thursday meet-ing included Umberto Tucci, day-men; Gerald Hertzog, dorm men; Bea Ribner, dorm women; Betty Burnett, Helen Ross, Pats; Dean Helen Cunliffe Cunliffe and Prof. John

# The Albrightian Declares Its Last Will In Face of Storm

from which we never expect to es-cape, do hereby declare our last will and testament. We are working with winds howling and snow blowing, even though we know this last spurt of energy may be our last, and all this we do with heads held high and a song on our lips. (Sigh! Aren't

of energy to get today's headline to the press, we are in a sense, writing tomorrow's headlines. Tomorrow, when our frozen hulks are chopped from the snow and ice, the radios will buzz and the presses will hum with the news that five courageous Albrightians stuck to their posts in the face of a six-foot snow storm (that may be a little exaggerated) that snowed them under (the tables are turned, the cynics will declare).

We sacrifice our lives in the wor ship of the great gods Deadline Public. This was heritage left former editors in the face of hard-ships greater than ours, but we are proud to claim the honor of being the first to make the supreme sacri-fice (notice, the alliteration fits with the term "sad sack").

Criticism of our institution is undoubtedly one of the most comi topics for conversation within our student body. Constructive criticism is healthy, but an abundance of de structive criticism is undesirable. We should talk over the various problems faced by the students relative to extra-curricular activities, campus organizations, administration, faculty etc., and then offer suggestions through the proper channels. However, we must remember, not always that which we feel would suit our individual situation wou'd be for the good of the entire college.

The type of concepation we carry on, both on campus and off campus with those the a are not a part of us, is going to seet not only upon our selves, he upon our school as well. I true that each of us wants our friews, acquaintances and others being a brother or sister in a fra-ternal organization, we have come to the el that our institution is one of the know friends who have exerted best and that it has been worth our while having spent our time here in gaining an education. One of the most common criteria for determin-ing a well educated person is through his manner of conversation. being interviewed for employment what one says and how he says it carries considerable weight.

There is always a time and a place for one to participate in reminiscing with old friends. When our former college friends come back to the campus for a visit, it is always a pleasure to get together and talk over old times and bring back to over old times and bring back to mind some of the tricks we played on each other, the way we crammed for exams, the girls we dated and how we liked or disliked that par-ticular professor. If we endeavor to improve our campus conversation we are going to find that in the end it will have been well worth our it will have been well worth our while and will pay dividends when we leave the campus to assume our places in society.

At a warm-up of the Quiz Kids radio show, somebody asked, "Can you think of any proverb that helps you in relations with your own father?" One angel-faced moppet shot up her hand and piped, "There's no fool like an old fool."
