ALBRIGHT WINS OPENER IN BASKET BALL

Defeats State Forestry

Saturday evening, Dec. 17th, the Albright basket-ball squad opened the 1921-1922 season by winning from the State Forestry College of Mt. Alto by the score of 39-22. This game was exceedingly fast for the first season game, owing to the fact that State Forestry has played several inter-collegiate games this season. On the other hand, Albright's veteran five started just where they left off last season. State Forestry had a better team than last year and played a passing game that at times compared favorably with our own. During the last few minutes of the first half four substitutes Knecht, Mehaffie, Zellers and Raffensberger went on the floor, leaving "Detty" Miller from the first five to captain the five. This five held their own against the Foresters. An argument arose over the fact that the substitutes had not reported to the State Forestry Manager who acted as score keeper. A penalty was inflicted on Albright for this infringement. This is the first time that this rule has been enforced on the Albright floor. The half ended with the score standing 25-13.

The veteran five opened the second half with a passing game that swept the visitors off their feet. Again at the close of the second period, substitutes were sent on the floor. Kingsley was left on the floor as captain with Knecht, Leinbach, Maury and Roland to assist in holding

(Continued on Page 3)

CHANGES IN THE DEPARTMENT OF EDUCATION

In a recent letter to the secretary of the faculty, Dr. A. L. Rowland, of the Teachers' Bureau, Department of Public Instruction, Harrisburg, recommends specific, standard courses in Education, in lieu of ethics, logic and philosophy, as a professional requirement for the state Provisional College Certificate. The Department of Education at Albright is fully prepared to meet this new ruling. Educational hours offered this year are more than 100% in advance of what they were three years ago.

Practice teaching under supervision has been introduced. Fifteen seniors are teaching this semester from three to five hours weekly in Albright Preparatory School. Satisfactory work in teaching is given full credit toward graduation. In addition to teaching hours, one period weekly is arranged for private consultation with the head of the department. The purpose of the consultation is to discuss specific problems in method and management which arises from time to time and

(Continued on Page 3)

CHRISTMAS PARTY FOR FOREIGN CHILDREN

Held by Y. W. C. A.

At 3:45 Dec. 19th, the chairman of the Social Service Committee, Miss Trostle, marshaled her forces and sent them out into town, to bring in the foreign children. At 4:15 the party was in full swing.

Songs that every one knew were sung, and the children entertained the girls with Italian songs and "pieces" that they had learned in school. Then Misses Sara Stadler and Marquardt told stories of the wonder working Santa Claus, and Miss Laucks told the story of that first Christmas of long ago.

Then came the best part of the party,—the giving of gifts. The look of happiness that stole over the little six year old's face when he was handed a drum and a "man that walked";—the look of calm content that came into one little girl's eyes as she softly sang "Silent Night" to her dolly;—the look of proud satisfaction that an honest-to-goodness pen-knife brought in another's face, repaid the girls many times over for the time it had taken to arrange it.

After the candy was given out, the children decided it was time to go home and "tell mama"; and giving the girls a hearty, "Thank you, we liked your party", and a "Merry Christmas", they left.

Willing

Willard Miller, discussing Mormonism: "Miss Gillmore, when are you going to Utah?"

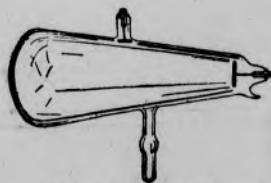

Miss Gillmore: "Whenever you go."

Hittorf or Crookes Tube

How Were X-Rays Discovered?

SIR James Mackenzie Davidson visited Professor Roentgen to find out how he discovered the X-rays.

Roentgen had covered a vacuum tube, called a Hittorf or Crookes tube, with black paper so as to cut off all its light. About four yards away was a piece of cardboard coated with a fluorescent compound. He turned on the current in the tube. The cardboard glowed brightly.

Sir James asked him: "What did you think?"

"I didn't think, I investigated," said Roentgen. He wanted to know what made the cardboard glow. Only planned experiments could give the answer. We all know the practical result. Thousands of lives are saved by surgeons who use the X-rays.

Later on, one of the scientists in the Research Laboratory of the General Electric Company became interested in a certain phenomenon sometimes observed in incandescent lamps. Others had observed it, but he, like Roentgen, investigated. The result was the discovery of new laws governing electrical conduction in high vacuum.

Another scientist in the same laboratory saw that on the basis of those new laws he could build a new tube for producing X-rays more effectively. This was the Coolidge X-ray tube which marked the greatest advance in the X-ray art since the original discovery by Roentgen.

Thus, scientific investigation of a strange phenomenon led to the discovery of a new art, and scientific investigation of another strange phenomenon led to the greatest improvement in that art.

It is for such reasons that the Research Laboratories of the General Electric Company are continually investigating, continually exploring the unknown. It is new knowledge that is sought. But practical results follow in an endless stream, and in many unexpected ways.

down the Foresters. This quintette not only held the score down, but scored on the Foresters.

Play was difficult owing to the floor having been waxed. If our Varsity five continue their strife, the present season will be a success. Mention must be made of the loyal cheering support accorded both teams.

Time of periods, 20 minutes.

SCIENTIFIC LECTURE

Monday evening, Dec. 19, Montraville Wood, distinguished scientist, inventor, and lecturer, gave a scientific talk, setting forth some recent inventions in the field of physics, and particularly in electricity. Mr. Wood is an excellent speaker, presenting his discussion in an entertaining manner. Among the inventions discussed was ultra-violet rays and their power, increase of voltage, curative and burning effects of rays, the detectaphone, and the modern gyroscope. Mr. Wood was brought to Myerstown under the auspices of the Wireless Club of the local high school. It is to be regretted that the lecture was not better patronized. By many it was pronounced to be the most entertaining and most instructive lecture ever given in the local high school.

Alumni of the school can be of great assistance in the scheduling of concerts in their communities and thus advance the cause of Albright College.

Your support is solicited for both boys' and girls' clubs.

INTER-SOCIETY DEBATE

The first inter-society debate for the Mudge cup was held Friday evening Dec. 9, in the local U. E. Church. The teams of the Neocosmian and Themesian societies met to debate the question, "Resolved, That the United States should abandon the Monroe doctrine." Both teams had well constructed debates and showed ability in presentation. The contest was close, rendering it difficult for the judges to make a decision. The judges retired for consultation and, after deliberation, rendered a unanimous decision in favor of the Themesians. The debaters for the Themesians were, Misses Pewterbaugh, Willard, and Laucks, while the Neocosmian were represented by Messrs. Hangen, Livingood and Kyle. The judges were Prof. Shook, Juniata, Prof. Jones, Muhlenberg, Miss Mary Bowman, Smith.

The final debate between the Themesians and the Excelsiors will be held during the fore part of January so as to leave the balance of the year clear for the preparation for the inter-collegiate debates. The question for the final debate for the Mudge cup is, "Resolved, that union of the Protestant Churches of America would further the cause of Christianity." The Excelsior team, Messrs. Bennet, Kaufman and Kachel, will defend the affirmative side of the proposition.

CHANGES IN THE DEPT. OF EDUCATION

(Continued From Page 1)

to develop a proper professional attitude and spirit.

The department is planning to keep a professional record of Albright alumni who are teaching. Teachers of the class of 1921 who filled out records last spring are requested to send to Prof. Zener their program of school activities in detail. If any are working for advanced degrees, that fact should be reported. All other Albright alumni who are in the teaching profession may

have blanks upon request. If all our teachers will make this department a medium of exchange they may render valuable service to one another without expense. If there is a vacancy in your district, let us know. Do you contemplate a change? Perhaps the old Alma Mater can help you.

Our teachers are reminded of the free placement service established at the beginning of 1921 by the Teachers' Bureau, Department of Public Instruction, Harrisburg.

LABORATORY EXPLOSION

While engaged in working an experiment, Dec. 5th, Paul Frey, a member of this year's Senior Class, was the victim of an explosion. Frey had made quite a supply of silver carbide and had put it in a bottle to be stored away for future use when in some unexplained manner the carbide exploded, shattering the bottle and literally peppering Frey with the small particles of splintered glass. His left hand was severely lacerated and his face was badly cut by the glass. Some of the glass entered the eye ball. First aid was rendered by Dr. Reiter. Later Dr. Kauffman, eye specialist from Lebanon was called. He decided that an operation was imperative. Frey was immediately removed to Dr. Kauffman's private hospital and the operation was performed. Everything possible has been done to save the sight of the injured eye. Upon consultation it was decided to call in a Philadelphia specialist. At present Mr. Frey is under treatment in Philadelphia. The Bulletin staff join with the school in extending their sympathy to Mr. Frey.

Flittings

When the Mohn Hallers moved into the new addition, they found that the mice, too, had been overcrowded, and were occupying the new quarters.

Innocence

Dech: "How early may one go to Mohn Hall on Saturday Night?"

EDITORIALS

RESOLUTIONS

We have come to associate resolutions with the beginning of the year. People persist in holding off all intentions to do right until the first of the new year, planning to put all their good ideas into effect then. The association of New Years day and resolutions may have a psychological value but we are inclined to doubt whether there is any practical value attached. If a person has made a mistake during the year there is no reason why he should persist in waiting until the first of the next year before reforming. The point may well be illustrated by the child learning to walk. The child in learning to walk may fall often but if he arises unassisted he arises on the spot where he fell. The same should apply to us as students. As men and women supposed to represent education and culture we should get away from the old fetish idea that new year's day is the time for resolutions. If we fall, like the child, we should get up where

we fell. Let every day be a new year's day, a day of determined resolution to do better.

ADVERTISING OUR COLLEGE

Albright college is not well known to the public at large because of the lack of publicity. The fault lies at the door of college authorities, alumni, and student body. Other colleges have brought themselves before the public by systematic planned campaigns, arranged by co-operation of college authorities, alumni, and student body.

Pick up periodicals and newspapers. Regularly at stated intervals you will find neat concise advertisements of colleges, setting forth the purpose of the college, its advantages, and a request for those interested in matriculating at a college to consult the president of the institution. Regardless of what the increase in numbers may be, the public is reminded that such a school exists.

The alumni could be of great assistance by bringing their Alma Mater to the attention of their communities by soliciting students and by arranging to have members of our faculty deliver addresses at high school commencements, community meetings, teachers institutes, and church services.

The student-body thru the press club should conduct a systematic campaign in local papers and their home community newspapers. This service should take up all phases of school activities. In the past our publicity staffs have only functioned during the athletic seasons. Let all phases of college life at Albright be presented.

Shall we continue as we have in the past or shall there be a well planned systematic campaign by college authorities, alumni, and students? We must have better publicity service if we hope for a Greater Albright.

What would you do if you had so many bids to Star Course that they started to come in by mail?

ADVANCEMENT

The school is glad to know that its Alma Mater is taking its place with the first class colleges of the day, and that we are no longer a back number. Albright is on the map; she is on par with all other colleges of her class. We as students hope that in the near future Albright will advance until she has taken a place with colleges of much higher standing.

Progress can be noticed in a marked degree in many ways. One need only look at the new buildings to note the progress materially. Examine the scores of the 1921 foot-ball season and you can see the progress of our athletics. Notice the article in this issue dealing with the Department of Education and you will become acquainted with the advancement in the educational department.

The idea of student placement by means of the Albright Alumni is a good plan. Surely an alumnus will take more interest in its graduates than the Department of Public Instruction in Harrisburg. If every alumnus keeps his eyes and ears open and reports any vacancies to our department of education, our graduating students will be aided in a great degree. Information of such vacancies can be reported to Prof. Zetter of our educational department. Alumni, your aid is kindly solicited.

BANQUET

One of the most successful foot-ball seasons of Albright was closed on Thursday night Nov. 8th when Manager Livingood gave a banquet in appreciation of the team's services during the year. The elaborate table was spread from the parlor into the living room of Prof. and Mrs. Benfer's home. Twenty-three men sat down to enjoy the "feed". The honored guests were Prof. Deck, Dr. Frankhauser and Mr. Leinbach.

After a full course-dinner was served, the toast-master, Mr. Livingood, announced the different toasts for the evening and each foot-ball man in his

(Continued on Page 5)

BANQUET

(Continued From Page 4)

turn responded. Mrs. Benfer favored the team with two vocal selections, with Miss Trostle at the piano. Popular songs and college songs were among the features of the evening.

Mrs. Benfer and Mrs. Deck, with the aid of Misses Statler, Trostle, Ritter, Kline, and Faust served the dinner. It was by no means a small menu, varying from Waldorf salad, chicken, etc. to "fruits for the gods". Before leaving, all joined in singing the Alma Mater and giving the "Boom Yell" for their coach and manager.

MALE GLEE CLUB

This year's male glee club promises to measure up to the standard set by Albright clubs in the past. This year's male glee club will feature instrumental members, thus presenting a well balanced musical program.

To date no definite route has been decided upon, but the territory covered will probably be the eastern part of the state.

The glee club serves a double purpose in training the members in a knowledge of music; and, secondly, in acting as an advertising medium for the college. Ministers of the Evangelical Church and Alumni of the school can be of great assistance in the scheduling of concerts in their communities, and thus advance the cause of Albright College. Your support is solicited for both the Boys' and Girls' clubs.

CHRISTMAS IN MYERS-TOWN

Christmas was quietly observed in Myerstown. Services were held morning, afternoon and evening in the various churches. The real Christmas celebration came on Monday evening when the community Christmas celebration was held. The community affair was under the direction of the boy scouts of Myerstown, under the direction of Scoutmaster Charles Moyer. A large

tree was placed in front of the high school, brilliantly illuminated. A program consisting of short talks and a community "sing" was given. Following the rendition of the program, three hundred pounds of candy, donated by the owners of the Liebovitz Shirt Factory, was given away.

CHRISTMAS MUSIC

The boys of Old Main serenaded both town and college people on Wednesday morning before leaving for home. At four o'clock a quartette consisting of Messers Schlenker, Basom, Sechrist and Brown sang Christmas carols. Later a violin-cello trio consisting of Messers Brown, Sechrist and Shaffer serenaded town and college people. Much favorable comment has been heard from town people concerning these impromptu concerts.

CALENDAR

Jan. 2nd—Winter term opens at four P. M.

Jan. 3rd, 6:45 P. M.—Y. M. C. A.

Jan. 7th—Albright Varsity plays the Navy at Annapolis, Md.

Note—All organizations are requested to hand to the Literary Editor a schedule of their activities each Friday following the publication of the Bulletin.

COLLEGE NOTES

"Irvie" Walmer, one of Albright's star athletes of last year, visited friends at Albright before the Christmas vacation. Walmer is at present attending Springfield Y. M. C. A. College.

The singing of the Christmas carols by the girls was a big hit with the fellows.

Both "Y" Associations are conducting a spirited budget campaign. These organizations are rendering a splendid service to the student body and should receive loyal financial support from the students and friends.

The ladies of the faculty were "at home" to the girls of the college at the home of Mrs. Bowman, on Thursday afternoon, December 8.

Slim Andrews requests that the girls who go to breakfast make less noise. They invariably disturb his slumbers.

Hereafter "Skipper" Maury is to be addressed as Mr. Maury. He thinks he has been advanced to that state since he breakfasted with the lady teachers Wednesday morning.

"Pass" Price continues to make his weekly pilgrimages to Myerstown for the purpose of selling popcorn. "Pass" continues to make political speeches for a nominal sum. His birthday comes every other Saturday and every other Saturday is a holiday. He always reminds you that presents are in order.

The student body has adapted itself well to its new meeting place, in the church, for chapel services.

Ditches have been opened from the main steam line to the Chemical Laboratory. By New Year it is hoped to have heat.

Since we have no chapel, student meetings are without a home. Meetings have been held in the gymnasium, class rooms, and biological laboratory.

Nothing but favorable comment has been heard concerning the new heating system. The problem of heating the buildings has been satisfactorily solved.

THE VOLUNTEER CONFERENCE

Albright was well represented at the student volunteer conference held at Princeton University for three days beginning Thursday, Dec. 1. The official delegate from the Y. M. C. A. was Mr. Kenneth Benfer '25, while the Y. W. C. A. was represented by Miss Frances Faust '23, and Miss Margaret Davis '25. Miss Pauline Brower '21 and Miss Marie Cox '21 also attended the conference.

Expectation

Bower agreed to give Crumbling five cents for the "Y" budget every time he used strong language. Bower got in an argument and saw Crumbling listen attentively—Bower: "Here is two dollars. They'll pay the freight."

CHRISTMAS CANTATA

The annual Christmas cantata was rendered in the local church Sunday evening Dec. 18. The large chorus was directed by Dr. Gobble and assisted by an orchestra of five members. The cantata was well rendered, as evidenced by the favorable comment heard from the large audience that filled the church. Preceding the rendition of the cantata, the choir rendered "The Holy City" by special request.

SCIENCE CLUB

The science club has enrolled a number of new members this semester, most of whom are students not having scientific studies but who have joined because of the benefit they are receiving from the programs. This should be an example and an incentive for the older members, and especially students working toward a B. S. degree, to be regular attendants at the meetings.

The lectures thus far have been very helpful and practical. During the last meeting the lecture on "Military Medicines and Vaccines" revealed the benefits and discoveries of vaccines. This is a modern advancement in science and the immunity of a healthy body to a fatal disease is a matter which may affect all of us. This is an instance of the practical value of the club since this subject is not dealt with in the curriculum.

The program for January 9 is as follows: Lecture—Growth of Plants, Shaffer; Talk—Water Analysis, Miss Pewterbaugh; Current Events, Ginter.

All students are cordially invited to attend these meetings.

RECENT LECTURES

The student body has benefited by two unusually good lectures in the past week. The first was that of Dr. Tibbets in the High School Auditorium, Tuesday evening, Dec. 13. Dr. Tibbets' subject was "The Peril of the Nation", and brot the dangerous aspect of Mormonism to the attention of the audience.

The second lecture was that of Dr. McKeene, under the auspices of the Parent-Teacher Association of Myerstown. The theme of this lecture was "Community Revolution", and it revealed the obligation of the individual to himself, his job, his community, his nation. In the opinion of the students Dr. McKeene is one of the ablest speakers ever heard in Myerstown.

CAMBRIA COUNTY CLUB

On December 13, the Cambria County Club held a very important meeting, with Pres. Statler in the chair. After attending to matters relative to vacation activities, the Club took up the question of adopting a motto and colors. After much discussion the combination of Azure and Black for colors and "Vouloir, c'est pouvoir," as a motto, were chosen. The usual Cambria booster spirit was manifested by every member.

All members of the Club join in wishing the Faculty and students a very happy and successful New Year.

Y. W. C. A.

The monthly missionary meeting was held Thursday, Dec. 15. Mary Miller, Chairman of the Missionary Committee, had charge. Miss Miller gave an interesting talk on how Christmas is celebrated in China in the districts where our missionaries are stationed. Pauline Brower told us how Xmas is observed in the Philippines. In the last named place the ceremonies last for two weeks. An interesting article on missions was read by members of the Society.

THEMESIAN SOCIETY

The program for December 16, the last before the Xmas vacation, was suitable to the season of the year. Each member portrayed some phase of Christmas. Mrs. Benfer rendered a very pleasing vocal solo, accompanied by Mr. Brown on the violin. Esther Curry gave an interesting talk on "Christmas". A quartet, consisting of Edith Trostle, Anna Mengel, Verda Wetzell,

and Sara Statler sang the well known carols, Holy Night, Little Town of Bethlehem, Hark the Herald Angels Sing, and Joy to the World. A clever and thoroly interesting sketch, written by members of the society, was given by some of the girls. The proper Xmas spirit was emphasized and each girl felt filled anew with the joy of giving. Other numbers on the program included a Xmas story "The Children's Republic" by Grace Statler and selections on the Victrola. The Social Comm. served refreshments which were enjoyed by every one present.

ALUMNI NOTES

Rev. E. E. Stauffer '91 was one of the speakers at the national conference of the Anti-Saloon League, held in Washington the second week in December.

T. R. Buck, '90, was recently elected a member of the School Board of Berwick, Pa.

The following item concerning Rev. H. H. Bird, '09, pastor of the Presbyterian Church, Abington, Pa., was recently published in The Continent: "The men's association of Abington church, Rev. H. H. Bird pastor, is reaching out after all the men of the community and the men's Bible Class has grown to such proportions that a new building is needed. The church has the budget system and last year gave \$7000 for benevolence and \$11,000 for current expenses. The church is nearly 210 years old and has started missions in the section around it, many of which have become flourishing churches larger even than the mother church."

Rev. H. M. Buck, '18, Enola, Pa., is the proud father of Harry Merwyn Buck, Jr., born on Nov. 18, 1921.

William C. Mauser, '90, who for twenty-eight years was connected with the public schools of Bloomsburg, Pa., is now superintendent of the schools of Trevorton, Pa.

Rev. R. A. Bausch, '09, pastor of the Reformed Church, Sellersville, Pa., is superintendent of the Young People's Division of the Bucks County Sabbath School Association.

FRATERNITY NOTES**Kappa Upsilon Phi**

Fraters Basom and Wagner will represent Kappa Upsilon Phi in the Inter-Fraternity council.

Fraters T. L. Jacoby '21, and W. J. Spangler '21 visited the college during the Thanksgiving recess.

Kappa Upsilon Phi takes pleasure in announcing that Messrs Harry Crumbling '24, Fred Bower '24 and Willard Mohn '24, have been received into active membership. Paul Dech '23 has been received in to pledge membership.

Zeta Omega Epsilon

Fratr Loyd Roland, '21 is engaged in teaching biology in the High School at Knoxville, Pa. Besides his work at the school he is actively engaged in leading the choir of the Presbyterian Church.

Fratr P. M. Hartzler, '15, is now resuming his studies in the Harvard School of medicine. His address is No. 51 Fenwood Road, Boston 17, Mass.

It was the pleasure of the fraternity to greet Mrs. Kyle and son, Richard Eugene at a week end visit to the college. The well wishes of the fraternity are extended to frater Kyle and family.

Fratr Harry S. Kline was here during the Thanksgiving vacation. He is in the chemistry department of the Dubois, Pa. High School.

Fratr A. E. Long was with us over the week-end.

Mr. A. F. Kaltreider was entertained by the fraternity on Sunday, Nov. 27.

Pi Tau Beta

The Pi Tau Beta fraternity takes the pleasure in announcing the initiation of a new member into the fraternity, J. Kenneth Snyder.

The men who represent the fraternity in the Inter-Fraternity council are Fraters Schlenker and Lackey.

Prof. S. M. Short spent part of his Thanksgiving vacation visiting friends at Albright.

Some people don't find it necessary to use an automobile to run down their neighbors.

THE JOB'S, THE THING

"If by the time he is a sophomore or a junior, the student hasn't a pretty good idea of the career he wants to follow, his first few years in the practical world are apt to be lost. Jobs do not turn up as if by magic, the day after Commencement."

This observation comes from a business executive. It is based on his experience with candidates for opportunities in commercial and industrial organizations—candidates from among the annually increasing number of graduates from American colleges.

Frequently however the undergraduate activities of a college man or woman give unmistakable evidence of the kind of work he or she is most naturally fitted for. Fortunate indeed is the student who finds the job which will give these talents an opportunity for development. Then the first few years out of college will not be lost.

Grasping this opportunity to serve undergraduates of American colleges who wish to focus their efforts where they will count for most the American Association of Social Workers (130 East 22nd St., New York) has issued a pamphlet presenting the opportunities in social work open to men and women trained for this new profession. It is entitled "The Profession of Social Work", and may be secured by mail from the above address.

"Some college students are always being consulted by their friends in regard to the election of courses, or their own personal problems." They can become trained case workers assisting individuals in a wider field to solve their social problems. Such positions are most often found with organizations dealing with children, with families, with maladjusted or abnormal individuals, although employment management, visiting teaching, vocational counseling call for the same ability.

"Other undergraduates naturally stand out and assume

(Continued From Page 7)

leadership in college clubs, or athletic teams. They become song leaders, run amateur theatricals, preside over debating societies." In the club work of settlements, Boy and Girl Scout organizations, the recreation work of the Y. M. C. A. and Community Service, group activities with foreigners, this ability to handle groups of people is a pre-requisite.

"Still other students successfully run athletic teams, school publications, or special social events." This is the stuff of which the community organizer is made. Health agencies, community councils of social agencies, chambers of commerce, financial federations—present opportunities for these.

Finally for the honor student, the Phi Beta Kappa man or woman who is interested in gathering, analyzing and interpreting facts, there is the broad field of social research. With research foundations, public departments, and a wide variety of social agencies, opportunity can be found for fundamental contribution to social science.

In one of the twenty-two professional schools of social work a college graduate can secure training which will start him well on the road to success in this new profession. All of them have generous fellowships and loan funds, and while its appeal is not to those who put remuneration first, yet both beginning and average salaries compare well with those in other professional fields.

Psychology

Miss Kinsinger when told that she would have to use her imagination when she used syrup on her ice cream, remarked, "It seems to me one has to use imagination regarding a lot of things around here."

"ONE HUNDRED AND EIGHTY MILE HIKE"

Just as in the days of old when Moses and Aaron went forth in the wilderness, leaving their destination to the Fates, so Shewell and Benfer went forth on December 10. Leaving Main Building at 9 o'clock in the direction of Reading, we met a truck about two squares from town. Talking about bumps and "Hair Breadth Harry" escapades, he had nothing on us. After living the life of our friend "Harry" for twelve miles, the gasoline pipe burst. "Bill" told us he could not go any farther, so we left him and once more were on the way. After hiking about one-half mile a Dodge sedan came along, and as a good Samaritan escorted us into Reading. That town was not lively enough for us, so we again left it to the fates to guide us on toward Philadelphia. A grocer took us to the city limits, no excitement. Hiked about a half mile, a Velie picked us up and took us within twelve miles of Phila. The machine was without a top and the wind was very cold. Hiked again until picked up by a Ford Sedan which took us to the City Limits of Philly. Jumped out of the Ford into a big Studebaker which took us to the center of town. Another Ford Sedan took us within two squares of U. of P. Visited there a short time, then went to Benfer's place for a short chat. After looking around the "borg" for a few hours left for Good Old Albright via the P. & R. R. After traveling about one hundred and eighty miles, we were well satisfied with our adventure and that the day well spent.

The green caps added to the attraction and success of the day. Had it not been for them, we might have been lost, strayed or stolen.

Prospects

Percy Frey: "If I arrive in the lower regions in the future, I hope Witmer is fireman."

This has been a trying week for Grace Pewterbaugh. She has a secret to keep.

OUR ALL AMERICAN

Since the spirit is in the air for newspaper and publication selections of All-American eleven, the Bulletin Staff feels that the list of mythical All-American elevens would not be complete without our choice. Our selections are as follows:

L. E. River of Lehigh.
L. T. Pride, of Lebanon Valley.

L. G. Mountains, of Colorado.

C. Brother, of Franklin and Marshall.

R. G. Banks, of Delaware.

R. T. Peak, of Mt. Union.

R. E. Tributary, of Susquehanna.

Q. B. Falls, of Niagara.

L. H. Graduate, of Yale.

R. H. Poverty, of Penn.

F. B. Hatchet, of George Washington.

Substitutes—County, of Allegheny; Hide, of Beaver; Lid, of Case; Beer, of Cincinnati; City, of Detroit; Hat, of John Hopkins; Streets, of Pittsburgh; Mother, of Lafayette.

Coach—Temptation, of Washington and Jefferson.

GOVERNMENT IS TO GOVERN

We believe that it was Emile Faguet who wrote a book on "The Dread of Responsibility."

All over the world at the present time there seems to be such a dread on the part of people in authority. Difficult situations are ignored not dealt with. Hard problems are put off until tomorrow instead of being solved today.

It is the duty of government to govern. Otherwise it is simply a machine for spending taxes.

The United States government should establish conclusively the fact that no criminal can safely contend against its authority.

Back in the old days it was very seldom that desperate criminals tampered with the United States mails. Border gunmen would stop trains and loot the express cars, but carefully refrained from molesting the mail clerks. They knew that if they meddled with Uncle Sam's mail, Uncle Sam

would camp on their trail un-
til he caught them, and when
he did catch them his hand
would be heavy.It seems to us that Mr. Will
Hayes is exactly right in tak-
ing measures which will make
criminals respect the authority
of the United States. We cer-
tainly hope that he is bringing
in a new era similar to the old
one, when highwaymen prefer-
red to fight a buzz saw rather
than a mail clerk.**And we trust the day is com-**
ing when every would-be boot-
legger in the country will have
similar fear of the heavy hand
of the law. It will be a better
day for the United States when
every one realizes that selling
liquor means that trouble in big
doses will follow just as in-
evitably as night follows day.The responsibility of enforc-
ing the prohibition law is upon
the government. The law suf-
fices for its purpose. **The gov-**
ernment should take any meas-
ures necessary to put that law
into complete effect.

**THE MOVIE AND CHRIS-
TIANITY****J. Good Brown '23**

(Continued)

The Christian Endeavor World gives the following facts which have been proved by investigation to be true, and vividly show what the child is seeing is the movie. A survey of three hundred and thirty eight current moving picture films was recently made. Only thirty-five of them were free from objectionable features; one hundred and seven, featured married intrigue or unfaithfulness; thirty-six featured divorce; one hundred featured immodest dress; one hundred and thirty three, social or individual drinking; eighty nine, indecent cabaret dancing; one hundred and nineteen, the interior of houses of ill fame, gambling halls, etc., one hundred and eighty four, undue freedom of contact between the sexes; seventy-eight, smoking by girls and women. Other bad features were presented which may not be properly described in print for general reading.

Therefore, we as Christians should do our utmost, not to abolish the movie, but to bring forth every available influence we possess, in order that the movie might be Christianized. Thus the evils mentioned in the foregoing paragraphs should be eliminated from the screen, and pictures shown of such a nature that will educate and benefit mankind. And with this reconstructed-movie, humanity will be benefitted, and the movie will be an asset instead of a detriment.

Eureka

Prof Kiess: "If a ball falls 60 ft., rebounding one-third of the descent each time, will the ball ever come to rest?"

Freshies: "No."

Benfer: "That's perpetual motion."

Confession

Peg Willard, rubbing some red sweater wool from her dress: "I'd better rub this off before someone thinks I saw Norman."
