The results from the comprehene testing program conducted at Albright last spring have now been made available. Interestingly enough Albright's norm of achieve enough Albright's norm of achieve-ment is on the average three to four percentile points above the national norm for sophomores while the senior national sorm of Ry Student Body achievement is still not available. More than 10,000 students throughthe nation cooperated in out testing program.

Students will remember that here at Albright both sophomores here at Albright both sophomores and seniors took the same test last spring. In the data presented be-low we are reporting the median, twenty-fifth percentile, seventy-fifth percentile, the standard de-viation, and the critical ratio for each function measured for both each function measured for both the sophomores and seniors.

Generally speaking the seniors score slightly higher than the score slightly higher than the sophomores, although this does not hold true in every instance. Statisticians are of the opinion that one must obtain a critical ratio of three in order to be certain that the difference between the scores obtained on the same test is sig-nificant. Some insist that a critical ratio of two and above demon strates a significant difference in scores obtained. On the basis of the first criterion, a critical ratio of three, in no case do we have a significant difference in favor of the seniors over the sophomores. On the basis of the second cri-terion, a critical ratio of two or over, we do have significant dif-ferences favoring the seniors in eight of the tests taken, namely, Effectiveness of Expression, Speed of Comprehension, English Total, Current Social Problems, Literature, Fine Arts, Contemporary

# **By Student Body** Induction Ceremony Takes Place at 10 A. M.

A dramatic induction ceremony marked the end of the freshman orientation period this morning. The service, which was held on the science hall steps at 10 o'clock this morning, had for its purpose that of officially receiving each and every freshman into the student body of Albright College. This ceremony was highlighted

by the participation of representa-tives of the administration, each individual class, and student coun-cil. The various groups after meeting at their designated spots walked in a procession to the set ence hall steps, from which the service took place.

## **Russia**—Religious!

#### By ART McKAY

If one were to draw the obvious inference from Mr. Roosevelt's reference at a recent press con-ference to the religious freedom in Soviet Russia, one would be forced to believe that Russia in 1941 has a degree of religious freedom com-parable to our own here in the

a united states. Mr. Roosevelt made reference to Article 124 in the Constitution of the U. S. S. R. which guaran-tees the rights of individuals and organizations with reference to re-ligious worship. But our President failed to point out the rather signifi-cant fact that never has the Stalin government validated

Religious Emphasis Week be-gins on Monday morning with the first of a series of talks by Dr. J. Arthur Heck, newly-elected presi dent of the Evangelical School of Theology, on the theme: Christian Faith—Fact or Fancy? During the four-day period, Dr. Heck will speak in chapel during the regular morning period, will speak again in the evening, and will hold spe-cial meetings and private talks with campus organizations and students.

The morning program, Monday through Thursday, will be held at 10 o'clock as usual. On Monday afternoon at 4:30 o'clock Dr. Heck will meet members of the faculty in the Selwyn Hall parlors. day he will meet the "Y" ca Tues cabinets at the same time. In addition, Dr. Heck is available for conferences with individuals during the day.

For the morning sessions, Dr. Heck presents an interesting group of titles: What is Religion?; What is the Sense of Praying?; Why Am I Here?; and Where Do I Go From Here

In the evening the speaker will discuss these thoughts: How Can I Escape God?: What If I Try?: Is There a Way Out?: and Why Should I Care?

For a number of years, Dr. Heck has served as the General Secre-tary of the Board of Christian Ed-ucation of the Evangelical Church. He comes to us with a wealth of student contacts in his past exserlence

All students are urged to attend hese meetings during this significant week.

## **One For All**

During the last few years we have beheld, to our sorrow, the dire consequences of clique formations. We have noted quarrels and differences prevalent which are due in their entirety to group tension.

Are we not all fellow Albrightians? Must we always be only an APO, Zeta, Kappa, Pi Tau, or Daystudent? Do we not have a common vein, a common life-line which should bind us closely to-gether in unity for a common cause? Should we not place the higher ideals at the top of the ladder and then climb the heights by means of our own individual instruments—the fraternity, sorority or club? Are these organizations formed for the purpose of dictating policies to the individual or are they formed for the benefit of the individual as a means of attaining greater heights?

Let's forget our party differences, and our group names. Let us be first of all—Albrightians. We should feel that we are one big happy family, that we are sisters and brothers with a common cause.

We have not made this plea for unity because we are not in favor of fraternal organizations or because of any grudge. We have made it because we feel that this spirit of unity will help to build a greater Albright.

## A Letter To The Editor

To the Editor of THE ALBRIGHTIAN:

In response to your editorial invitation to "submit your ideas to the student body through these columns," and in keeping with my belief, likewise, that "the outcome of this crisis is going to affect Albright College life for years to come," I suggest that you do this about the matter for which you mention the paddle:

- (1) Let all of the students of Albright College know that they are expected to conduct themselves as ladies and gentlemen in polite society.
- (2) Use a form of social ostracism as a last resort in dealing with the sophomore, junior, and senior boors and rowdies who have not as yet grown out of a rather tiresome and misguided adolescence.
- (3) Put an end to all this nonsense about "blots on Albright's traditions" and begin some work of a constructive nature that will make for social, cultural, and academic growth.

I am living and working among students here at Harvard who do not even consider imposing indignities of dress or conduct upon Freshmen and who are quite adult in the things they do; and they have come from many of the high schools that lead to Albright.

Am I to be persuaded that our Alma Mater is content with cast-offs? or are there students on our campus who will help you put an end to such out-worn childishness as customs?

-Robert L. Work, '32.

Even though Mr. Work agrees with us that "the outcome of this crisis is going to affect Albright College life for years to come," our opinions differ entirely on the subject of freshman orientation.

Not only do our opinions about orientation differ, but they also differ on the question of the characters of the persons whom Mr. Work terms—"boors and rowdies." This is a very hard statement indeed!

-Harold M. Werner.

## Hello, folks,

This week, since everything is quiet on the Russian front, all the Czechs and Serbians have reformed and ceased to plant hand grenades under unsuspecting Nazi sentries, and news from Japan is all cen-sored, we have decided to scout the home front for news. The draftee situation presented much food for thought, so we decided to delve into it. With thousands of men (many of them ex-college day students no doubt) exercised day students, no doubt) crowded into small areas, it stands to rea son that a new crop of army jokes must be in the process of incuba-tion. Hence we decided to send tion. trusty reporter, Boswell Snoop, into an army camp to dig up the latest dirt. Boswell was so well liked that the army decided to keep him around for a 2½-year stretch. He did manage to get his report through by means of an Bos army carrier pigeon which well managed to bribe w ed to bribe with a French's bird seed. package of French's bird see Herewith is the dope. One hot blistering day, a group of tired soldiers marching along a prairie road, saw a sign saying, Two miles to the next town.

Half an hour later they saw a second sign, "Next town, two miles."

Twenty minutes later, they saw rancher riding by. "How many a rancher riding by. "How many miles to the next town?" called one of the soldiers, eagerly.

'Oh, a good two miles," said rancher. Well," sighed an optimistic

The officer in response to the sentry's challenge, got off his horse, sloshed thru the mud, pre-sented his papers, splashed back to his rain drenched steed and mounted again. "By the way," he called as he

rode away, his uniform thoroughly ruined by now, "who posted you here, in this God-forsaken spot?" "No one, sir," said the recruit. "No one, sir," said the recruit, m just practicing."

The army claimed another Albright athlete Wednesday when affable Dick Westgate was drafted. when blck, a graduate last June, was fast becoming one of Albright's greatest tackles when he met up with a serious injury two seasons ago. The news that he is physi-cally fit again should be hearten-ing to his college friends

ing to his college friends. This army life must be pretty nice, for Uncle Sam has pretty filee, for Chele sam has quite a few ex-Lion athletes in tow. Ray Thorpe, Ed Halb-foster, Waldo Eshelman, Paul Golis, Les Knox, Jildo Zanot, who is a gunner in the field artillery, are some of the boys who are preparing for the de fense of the home land.

The Lions' grid machine will have a little war of its own against our traditional rivals, Lebanon Valley, tomorrow. The gridders appeared to be primed mentally and physically for a tough ball game. Past records are no indication when the Dutchmen and the Lions meet on the gridiron.

Albright has come out on top in every contest since 1935. The Valiants won in '34 by a 6-3 count but since that the Red and White have rolled up convincing margins for wins. The biggest score, 40-20, was in 1939 when a hard charging Albright line smashed a highly touted passing attack and paved the way for six touchdowns. Last year's verdict came on a 20-yard field goal off the toe of Bob Bennett.

The Columbia University foot the Columbia University foot-ball coaching staff has a rather practical system for numbering their players. Under this method the ends are numbered in the eighties, tackles in the seventies and guards in the sixties, with odd final numerals on the left and even on the right. Centers wear num-bers in the fifties. Quarterbacks are numbered in the twenties, fullbacks in the thirties, left halfbacks in the forties and right halfbacks from 10 to 19.

The purpose of the innovation is to give the spectators more information about plays and players.

The Lions will be gunning for The Lions will be gunning for victory No. 4, losing only to Car-nesie Tech, while the Flying Dutchmen have dropped decisions to Bucknell and undefeated Moravian by one touchdown margins. The Annville gridders scored an impressive 30-7 win over City College of New York for their lone win.

Ace of the Lebanon Valley at-tack is Tony Ventresca, who tal-lied three touchdowns against C. C. N. Y. and passed to right end Don Staley for the fourth. The former Pottsville High star also is rated a good passer

Tomorrow's contest should develop into a battle of for-ward walls as both outfits have demonstrated that they can make their running attack go. The Lions' blocking, which was not up to par against West Chester, is expected to produce openings against the Dutchmen for the Red and White's hard running back, Bob Bennett.

Coach Lone Star Dietz and his aide, Jim Horn, will probably rely on the same forward wall that has on the same forward wall that has started the Lions' four contests. There is a possibility of the hard charging Tom Lubin to oust Bill Demidovich for the starting post. The coaching staff will probably not make a decision 'til game time. Bill Snangler Event. Destin Bill Spangler, Frank Bertino, Bob Baum, Jim Harpster, Nek Weber and durable Sam Corco-Dick drilli form the starting front line. #### Russia-Religious!

(Continued from page 1) As recently as 1939 this group was still doing its work, entering Russian Poland to repeat its evil deeds. Though now it is reported to have but 2,000,000 members, it still continues to reflect the true attitude of the Communist rulers toward religious worshippers

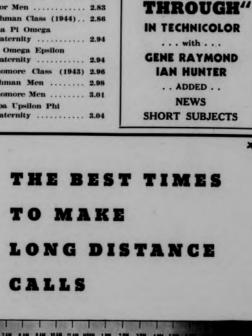

In his efforts to win the support of the good Roman Catholic people of America and that section of Protestantism which is opposed to aiding Russia so long as it is a Com-munist country which has out-lawed religion, Mr. Roosevelt has, it seems, taken to cloud-ing still another issue.

To give lease-lend aid to Moscow is quite in accord with our present foreign policy and the step grows naturally enough out of the Administration's actions in the past. But to seek to defend it on the grounds that Russia has all along been a fellow-Christian nation is not within a city block of the point

Somehow I cannot help but feel. each time some new bit of foreign policy is revealed, that the Chief Executive of our nation lacks something of the integrity democ racy demands of men in his position. HERE IT IS AGAIN!

"SMILIN"

ALTHOUGH it looks something like a sunrise over Pike's Peak, this is really a chart showing the ebb and flow of Long Distance calls during an average day.

Notice the sharp peaks in mid-morning, mid-afternoon and at 7 P. M.? That's when Long Distance lines are most crowded these busy days. Defense activities have put an extra heavy load on telephone facilities.

If you avoid these three peak periods, you'll get faster service on your calls—and you'll be helping to "speed the calls that speed defense."
