Explorer To Present 'Expedition Ice Cap'

Paul Victor To Speak In Cultural Program

Today with radio and airplane the modern polar explorer has no need in order to lead his men into the frozen North. Such is the case with Paul E. Victor, outstanding French polar explorer who is bringing his fascinating color motion picture, "Expedition Ice Cap" to Krause Hall, Thursday, December 9 in as-sembly. Depicting highlights of Vic-

sembly. Depicting nignisms of vic-tor's five year expedition in Green-land, it has been shown in Europe to over 100,000 people. Paul E. Victor is universally rec-ognized as one-of the world's top-polar experts. Fascinated with the Artic since his first visit there in 1994 at the are of twenty-five he Artic since his first visit there in 1934 at the age of twenty-five, he spent three years in East Greenland and made his first crossing of the ice cap on foot and with dog-sleds. He was adopted by an Eskimo family and lived for a year in their igloo. There he learned about the devastating famine which decimated the population of Greenland some seventy years ago. He wrote about the whole dramatic story in a book called "The Great Famine," published in the United States in 1954.

Modern Techniques Used

When Mr. Victor returned home to France in 1946 after four years service with the United States Air Force (during which time he rose from private to captain), he was de From private to captain!, he was use termined to put his native country on the polar map, and to do so by using the modern techniques which he had helped to develop while serving with the U. S. Air Force in Alaska and with the Bering Sea Peccent Living. Rescue Unit.

The development of air power had given the polar regions new strategic importance, and their economic and scientific importance was also tegic importance, and their economic and scientific importance was also being increasingly recognized. At that time, too, it was hoped that the Antarctic continent might contain uranium deposits and many nations were sending out exploring expeditions. Even though it took him almost a year to organize the French Polar Expedition, he immediately set about organizing not one but two expeditions; one to Greenland, which was to be entirely scientific in aim and the other to the only French possession in the Antarctic, Adelie Land, which had been staked out in 1840 and visited only once since them. The latter expedition was to set up a permanent Antarctic base to survey Adelie Land.

Give Thanks In Service

Americans have a great deal to be thankful for. Our land is rich in natural resources, and from the vast melting pot that is America has come a strong and vigorous people, capable of forging the raw materials of the east and west and north and south into a solidly united nation.

For this we are thankful. As Albrightians, we are es pecially thankful for the opportunity to do college work that will prepare us to effectively uphold and further the traditions we believe in.

Every year, toward the end of November, we think a little about being thankful, and perhaps we even mention it to each other, or go to church and sing songs about it.

Paying lip service to the spirit of Thanksgiving is a pretty feeble way of showing gratefulness. True thankfulness comes from the heart, and is best expressed in service to others.

The combined Y's are currently sponsoring a service pro gram which gives every Albrightian a chance to show his thankfulness by helping someone else. The first part of this program consists of supplying baskets of food to families in the Reading area which, because of illness or unemployment, might otherwise have a skimpy Thanksgiving dinner, if any at all. Everyone is asked to help donate this food. Cards will be distributed, listing the individual items of food needed. The cost of each student's share will amount to less than the price of a movie.

The second part of the program concerns the Christmas party for underprivileged children. The biggest thrill of a child's Christmas comes when Santa Claus personally inquires about the past year's behavior and gives out the toys manufactured far up in the North Pole workshop.

A branch of this workshop is located in the Y office in Sel-wyn Hall. The toys are manufactured from the old, broken ones students are able to dig out of attics and cellars. Let's show our thankfulness in a way that counts-by helping the Y drive.

Help Fill in the Blanks

We've grown up now, as every graduate of Adjustment knows, but has our school newspaper? This rather moot point has been brought up more and more frequently of late. Some of the deeper thinkers on campus are of the opinion that the Albrightian could contribute much more to intellectual life of the college than it has been doing.

It has been said that there is nothing of adult interest in the Albrightian. The instinctive answer to that is, "We're not writing for adults, we're writing for Albright students." Then comes the sobering thought that Albright students are adults, and that it is quite possible the Albrightian has been failing

Articles which seem to draw the largest response are those which have little point besides entertainment. The tendency, then, is to print as much light feature as possible.

Somewhere along the line, light feature took over entirely, and annihilated any serious, thought-provoking topics which may have been lurking behind the filing cabinets brightian office. Anxious to mend our ways, we find that we don't know where to begin. Do you want to read about politics, the draft, veteran's problems, new books, or creative writing done by students on campus? If you could plan an issue of the Albrightian, what would you consider most important?

Lions, 27-0

Last Saturday, November 20, marks the end of Albright's 1954 grid season as the Lions play host to the undefeated Cadets of Pennsylvania Military College at Albright Stadium. The rivalry between these two teams began in 1917, and, going into Saturday's game, the two teams began in 1917, and going into Saturday's game, the two teams have split even in twenty-two contests, each winning eleven. Last year P.M.C. was victorious, 7-0, in a hard a crowd of 4,500 fans at Lewisburg fought contest at Chester.

Coach Ed Gulian's Lions, who bave a 3-5 record so far this season, were defeated last Saturday by the Bisons of Bucknell 27-0. Their start-ing lineup will be as usual. The backfield consists of Roy Dragon in the signal calling position, Bob Rel-ler, the team's leading scorer, and Willie Smith at halfback, and Chris

Pennsylvania Military Academy's list of victims includes Western Maryland, Moravian, Wagner, Lycoming, Dickinson, and Lebanon Valley. Albright has defeated Muhl-enberg. F. & M., and Lebanon Val-ley while losing to Lafayette, Gettysburg, Alfred, Moravian, and Buck-

nell.

Albright, except for a shaky first quarter in which they yielded 20 points, settled down and played on even terms with Bucknell last Sat-urday, and led the Bisons in first downs 15-13. The Lions should give the Cadets a real battle when the two teams end another grid season.
