NUMBER TWENTY

#### PLANS FOR NEW SCIENCE COMPLEX UNVEILED

Albright Director of Redevelopment, Barney Canary, announc-ed on Monday that plans have been finallized for the \$50 million Soble-Horowitz Science Plaza. According to Canary, the grounds crew began work on the project last week by raking leaves and transplanting three geranium plants, and major construction is slated to begin at the conclusion of the intramural softball season. Although the complete list of facilities is unavailable at present (the only copy is missing from the reserv ed shelf in the library), Mr. Canary recalled some of the major departments:

Psychology Department Citizenship Laboratory: students placed on social probation will have the opportunity to experience some of B. F. Skinner's exciting new principles for a model society.

Biophysics Department: modern equipment to test the tensile strength of bones, the specific heat of internal organs, the elasticity of animal hides, and for other experiments in this exciting new field.

Polohovich Observatory: members of the Amateur Astronauts continued on page 2, col. 5

O'HAMOWITZ (R) WITH ASST. EDITOR GUSHWELL

## **NEW EDITOR NAMED**

The Albright Student Governing Board announced this week that due to the "Poor journalistic quality, negative journalism, and growing student dissatisfaction with the student newspaper" new editors have been chosen to restore the paper to the people.

In a press conference attended by six dissident student critics, ASGB President Tray Fadler announced that the new editor will be Ralpho O'Hamowitz from Philadelphia. Following wild emotional outbursts of joy by those attending, including whistles and shouts of "Bravo" from two unidentified, somewhat older men wearing sunglasses and "Do it Albright" buttons. We print in full the full, if brief, text of an exuberant O'Hamowitz:

"My fellow Albrightians. First there was one, then two, and finally perhaps a dozen who worked for my success. I thank you for that. Although it has been rumored that I am not a born Christian, let me assure you that my gentle mother, while upset at first, will understand.

It is obviously not important to challenge the Albright Reporter. It is a fine paper. I read that paper-cover to cover-in two minutes. But I believe we must continue to strive for an excellent student paper. We will not transgress our stated function 'To cover all campus events, serve as a historical record, and provide a vehicle for literary content.'

My assistants, who have shown great loyalty in the past and certainly look innocent enough, will stand by my side in this hour of need. The enemy has been met, and he is us, I think."

## COFFEEHOUSE, NORTHERN IRELAND NIGHT UPCOMING CCB EVENTS

Ever-striving to promote topflight entertainment for the Albright students, the Campus Center Board is sponsoring another stupendous weekend of fun-filled activities.

Kicking off the Big Weekend will be "Northern Ireland Night" on

Friday evening. For only fifty cents students can decide whether they want to be British soldiers or members of the Irish Republican Army. Students choosing the "soldier" option will receive tokens representing tear gas, Sten guns, rubber bullets, and armored cars. Make -believe Ulster nationalists will be given fiat hand grenades, World War Two vintage rifles, and tar and feathers. Students then get to match their wits and their tactical skills against one another at various game boards, including the Civil Rights March, the Pub, the Riot, and the Crowded Department Store. At any time throughout the evening, participants may trade in confirmed kills for-you guessed itl-The Irish Sweepstakes! First prize is a color TV, so conce one, come all

The following ni, the Coffeehouse Circuit will continue with another night of big-name entertainment. Saturday's rising star will be none other than Tony "Tex" Randazzo, a unique kind of folk-singer. The Brooklyn native specializes in rearranging traditional country songs for the Hawaiian guitar. Tex has just returned to the East after a string of successful appearances at many campuses, including California State at Fullerton, Brigham Young, and Oral Roberts. "I really dig young people," says the effervescent singer. "They've really got some good ideas."

So keep this Friday and saturday free, folks-there's absolutely no reason to stay in the dorms!

TONY "TEX" RANDAZZO

THE CCB REMINDS ALL STUDENTS THAT ULSTER NIGHT IS COMING!

#### AN EDITORIAL

It has occurred to the editors that it is long past the optimal time to take a firm position on one of the most crucial and compelling issues of our common era-squirrels and their relationship to group integration norms from a sociological perspective.

Let us state the first assumption second, the second first and the third third to minimize confusion. Squirrels can be viewed from four metaphysical perspectives, each interest-ingly containing a number of subgroups to distinguish them in an ontological way from the eschatalogical im-plications implicit in each of the aforementioned catagories. Of course we cannot ignore the political implications. Lately squirrels have assumed an important dimension vis-a-vis sexual morality on the campus and its relationship to traditional Christian ethics, values, and the mores and norms that are thereby created i.e. the assault of innocent bystanders by squirrels.

This brings to the fore a new question-"Why is a squirrel a squirrel?" Now this question can be divided into two parts-The question "Why?" and the question "Is a "Is a squirrel a squirrel?" Now The Albrightian refuses to comment in the first of these questions, but we most vehemently reassert our position on the second. A squirrel is a squirrel.

#### NEW DORMITORY PROCEDURES ANNOUNCED

Facing the prospect of numerous beds-if the students pay a share conflicts over dormitory room of the alteration costs (about selections for next year, Assistant Dean of Dormitories Barney Arnoldzillo announced that room assignments will be made according to sweeping new regu-lations. Dean Arnoldzillo noted that the new procedures will not only eliminate most confussion, but will accomplish this by "healthy principles of a free enterprise economy-competition and purchasing power. Students who are not successful in obtaining their first choice rooms will learn important lessons about survival of richest-er, fittest."

The new policies are as follows:

1. All single rooms claimed by two or more students will be auctioned off to the highest bidder.

2. Basement lounges and kitchens will be subdivided into rooms for students with water

Copy for THE ALBRIGHTIAN is composed on campus and then printed by Rieck's Printuna. Ist and The Albrightian is published weekly

inted by Rieck's Printing, 1st and ranklin Streets, West Reading, Pa.

Any resemblences to actual perpast or present, without sons, satirical intent are entirely coincidental.

\$5.000).

All double-room conflicts 3. shall be settled by an essay contest. Each pair of prospective roommates will submit, in 50 words or less, a paper entitled "Why We Will Transfer If We Don't Get The Room."The most convincing argument wins; Mr. Kelsey will be the judge.

4. Teel Hall will be an experimental coed dormitory for virgins. Mandatory lie detector tests will be administered for entrance and will be repeated at mid-semester and during finals.

5. During the second week of classes next fall, any group of students who wish to be housed together (i.e. on the same floor) be allowed to arm themselves and attempt to seize the desired rooms by force. Occupants may surrender or defend themselves (in which case they too may be armed). There will no tuition or room-and-board refunds for fatalities.

6. In the event that entire floors cannot be arranged according to uniform visitation options, the doors of rooms on "mixed" floors will be painted as follows: Option 1: white, with a twelveinch stop sign; Option 2: green, with a two-picture sequence of Cinderella's carriage turning into a pumpkin; Option 3: nondescript tannish-grey, autographed by members of the psychology department.

Reiterating the college's policy which recognizes on-campus boarding as "a privilege, not a right" Dean Arnoldzillo also announced that no student living on campus may eat off campus unless he or she has classes during all three meal times.

#### LETTERS TO THE EDITORS Dear Editors:

If you people think that you're going to get away with that one, you've got another thing coming! I am referring, of course, to that disgusting, revolting, frightening, and upsetting cartoon in the March 10 Albrightian, called "Crudstoppers" Textbook." There's no denying that the likeness in that cartoon is that of Jerry Rubin, and that whole cartoon is meant to degrade and persecute Consciousness Three!

QUACK!

I feel nothing but bleeding heart compassion for the fascist pig who created that piece of trash, and I will meditate for his soul while listening to Rod Stewart tonight. I know that Nazism is

On Saturday, March 25, an open

meeting of the Free University Planning Committee was held to

discuss the future of this project

A quite lengthy discussion de-

veloped concerning the problem

of students who are cuiting their

courses. It was decided that

since all courses are of a partici-

patory format no more than three cuts will be tolerated

(those with more than three cuts

will be immediately expelled from the course in which they are currently enrolled and will

not be permitted to enroll in an-

other course for two semesters).

The second matter considered

was that of new courses for Fall 1972. A surprisingly large num-

ber of students attended and

participated freely. After all ideas and opinions had been

voiced, the Committee closed

the meeting in order to vote on

the suggested courses. Some of

the results of that vote are as

1. Auto Shop: Open to females

follows:

ed stock, and tax evasion.

1972-73 term:

4.Alternative Journalistic Styles: You will be reading more about this course in weekly feature articles, because one of the editors is teaching it.

Club will be able to keep track of their professional brothers circling the globe and advancing American technological triumphs to "new heights!

Science and the World of Sports Center: noting the successful use of computers by the world champion Dallas Cowboys, the Athletic Department will be provided with a slightly smaller version of Tom Landry's computer to go with the new domed, artificial turf-covered stadium. Other features will include the Pharmacology and Performance Laboratory and facilities for a crash program to develop an improved Astro-Turf shoe.

alive and well on Albright cam-

I am also confident that, at this very moment, the faculty is planning to meet and take appropriate action against the forces of reaction on this campus and their running dog pro-pagandists. I am equally certain that a coalition of students, working people, Blacks, Chicanos, women, and/or progressive revolutionary socialists shall 5.4

414

Following a series of unusual incidents immediately before Spring vacation, several students face disciplinary action (and possibly a hearing) from the Judiciary Board, Following a resolution by the Janitorial Senate, the Board decided to take up the various matters.

Charged with slovenly appearance, conduct unbecoming decent men and/or women, and immorality were Eddie "Good Times" Dubinsky of Paramus, N. J., and Rita May Briggs of Levittown, Pa. According to the report before the Board, the two students wandered into Selwyn Hall holding hands, and behaved irresponsibly when asked to leave. In addition, Dubinsky apparently stumbled as he left the building, leading observors to believe that he was intoxicated.

Charged with loitering, rudeness, obstructing the normal activities of the college, and immorality were Richard Bruno, Paul Krick, Susan Blumberg, and David Schlusser, all of Cherry Hill, N. J. The report stated that an unidentified administrator was forced to wait almost fifteen seconds until said students removed themselves from his path.

Finally, the entire membership of Kappa Epsilon Gamma fraternity was charged with making noise, violating quiet hours, and immorality. According to the report, a campus security officer making his rounds became sus picious when he could not find the KEG house at its usual site. Further investigation determined that the house had been somewhat altered. An informed source in the administration building asserted that many of the members will forfeit their breakage deposits.

## NEW COURSES

nents, and Ptolemaic calculus. This course is required for a degree in Mathematics, and will be offered every five years.

Physics 309–Slum Clearance: Prerequisite-Physics 308. Developed at Albright by an interdisciplinary panel of science instructors, this course studies the application of thermonuclear physics to a pressing social problem.

4

Political Science 406–Seminar on Nuclear War: Readings, discussions, and research projects which concentrate on the importance of value-free analysis of modern strategies and operations.

The Albrightian Student Governing Board hears all student complaints against the newspaper. We are old pros at obscenity, abortions, and poor journalism. For specific complaints please contact Jay Adler at box 123. We hope to be hearing from you soon.

BRUNI, KRICK, BLUMBERG AND SCHLUSSER

#### THE KAPPA EPSILON GAMMA HOUSE MARIJUANA COULD BE FATAL

Marijuana is the definite cause of a dangerous scalp disease, according to Dr. Rupert Slick of the prestigious Texas A&M Research Institute. Addressing the monthly meeting of the Skeleton Crew Society, Dr. Slick explained that his research has proven that the dangerous narcotic is "without a doubt the principal source of spiral scunjitis, a highly contagious and sometimes fatal vermin-like affliction."

Dr. Slick reported that fifty-nine percent of all scumjitis occurs in persons with long hair. What does he consider long? "Oh, there is no real standard" he replied. "I mean, some people can have hair which is almost shoulder-length, and it looks real neat--that is, it isn't afflicted. On the other hand, hair which is shorter but unkept is almost always suspect. This may seem like an unscholarly reference, but I think Playboy knows where it's at with hair length. That's about the only thing they know about, except plotography," he added, chucking.

Dr. Slick went on to explain that since a solid majority of the cases of scunjitis occur in "hairfreaks," and since almost all persons with long hair smoke marijuana, the conclusion is "too clear to be missed."

When asked if he had reported his findings to the Shafer Commission (which released a report advocatiog legal use of marijuana in private homes), Dr. Slick explained that the panel was almost totally dominated by extremists. "All I got from those subversives was sneers. That Shafer may be a Republican, but he's just as bad-why it's obvious, what with his allowing bussing while he was governor, continued on page 6, col. 5

#### MILTON HADLEY ANNOUNCES A NEW GAME FOR MIDDLE AMERICA: "The Albright How To Be A Martyr Game"

Here it is-the new way to combat advanced terminal boredom for suburban based students and administrators alike. Play out your fantasies-your goals to be an important political figure. Maneuver your men around the board to startle your opponents. Rally students to your side by challenging the administration. Hope the administration coun-ters with its typical line that further infuriates your sup-porters. Excitement builds as you land on a "Pick a Faculty Card" whoops-the faculty has just censured you for indecent behavior, but don't worry-you could get lucky and roll double sevens. Yes, double sevens and the dean gives you a needed break-he has overly dramatized the faculty position and has infuriated even your critics. Game tension tosses and turns and the student player tries to win by graduating before being expelled or lynched by a mob of violent pietists. Player automatically wins if he lands on "Pick a Fellowship Card" after rolling

doubles and is lucky enough to pick a Clanforth winner card.

Game includes:

Game board with student pawns, administration pieces, a trustee joker piece and loaded dice.

Official faculty sentiment cards; official cards from irate parents; official cards from trustees and lawyers of the college who are also trustees.

A pack of wild cards including:

1 Dean discussion of vital issues after countering with president card.

1 Direct comment from president via official walkway leading to office card.

1 Fraternity sentiment card.

1 Card allowing you to show obscene movies.

And 1 card awarding you a free transfer to another college.

#### ITT CONTRIBUTION WAS TO HELP ENVIROMENT

An estimated 800 persons in attendance at the seventeenth Community Convocation last Wednesday were surprised to learn that the International Telegraph and Telephone contribution to the Republican Party was not for the convention, as alleged by sensationalist left-wing columnist Jack Anderson, but was instead for the GOP's recently-formed Environmental Reporting Project (ERP). The keynote speaker, J. Ziegler Himdenberg, a professional administration spokesman, also told the audience that other American corporations had made similarly large contrabutions.

"It is time to clear the air of disrugerous nonsense," asserted kindenberg, "American free enuerprise are concerned about what's happening to the environment. And the bigger they are, the better their concern," he added.

According to the speaker, even "those radic-lib Earth Day people" concede that the environment issue is actually a complex set of several issues. The money, he explained, is being spent to set up a short-term information program in each state to inform the people about pollution and related issues. "The money is being appropriated wisely. After the convention,

compliments of Don's American Service 9th & Windsor St. Reading, Pa. 19604 Phone 376-9223

An estimated 800 persons in attendance at the seventeenth tionwide tour by President Community Convocation last Nixon, who will discuss many of Wednesday were surprised to the related issues."

> What are some of these issues? Mr. Hindenberg provided several examples and showed how the Nixon Administration has invariably initiated the proper policy in response:

> Vietnam: "We all know that overpopulation is a problem. Think what would happen if 150,000 men were suddenly thrust into society. Why the results would be disastrous. The President has wisely made troop withdrawals gradual."

> Busing: "Air pollution is bad enough as it is. If we start allowing filthy busses to run all over the place, there won't be a tree left in Scarsdale!"

> Phase II: "By allowing prices to rise while vetoing all wage increases, the administration will encourage more prudent consumption, and there will be less waste."

In closing, Mr. Hindenberg stated that "the Nixon Administration" is the best friend old Mother Nature ever had." With another four years in office, the President should have the country "well along the road toward a brave new world of progress."

#### COUNTER POINT

The high value placed on restraint and coldness (which, as the Beatles observe in the epigraph fro this chapter, creates even greater scarcity) generates in turn another norm: that of 'good taste." One can best understand the meaning of such a norm by examining what is common to those acts considered to be in violation of it, and on this basis the meaning of "good taste" is very clear. "Good taste" means tasteless in the literal sense. Any act or product which contains too much stimu lus value is considered to be "in bad taste" by old-culture ad-herents. Since gratification is viewed as a scarce commodity, arousal is dangerous. Clothes must be drab and inconspicuous, colors of low intensity, smells nonexistent ("if it weren't for bad taste there wouldn't be no taste at all"). Sounds should be quiet, words should lack affect. Four-letter words are always in bad taste because they have high stimulus value. Satire is in bad taste if it arouses political passions or creates images that are too vivid or exciting. All direct references to sexuality are in bad taste until proven innocent, since sexual arousal is the most feared result of all. The lines in old-culture homes, furnishings, and public buildings are hard and utilitarian. Since auditory overstiumlation is more familiary painful than its visual counterpart, brilliant, intense, vibrant colors are called "loud," and the preferred colors for old-culture homes are dull and listless. Stimulation in any form leaves oldculture Americans with a "bad taste" in their mouths. This taste is the taste of desire-a reminder that life in the here-and-now contains many pleasures to distract them from the carrot dangling beyond their reach. Too much stimulation makes the carrot hard to see. Good taste is a taste for carrots.

MAMMOTH PEP RALLY RIGHT: HORN-PLAYERS GETTING INTO THE "SWING" OF THINGS

## MARCHING BAND IS EXCITING

Albright College moved a step closer to becoming a major footcloser to becoming a major root-ball power on Monday night with the first practice of the newly-formed 300 member marching band. Going by the official name of the Big Red King of Beasts Band, the Lion musicians got off to a roaring start with a two-hour precision drill followed by three hours of music rehersal, and climaxed the night by performing at the Kick-Off Pep Rally in the fieldhouse. An estimated crowd of 8000 were on hand.

Asked if April 3 might not be a bit early for football rallies, Marching Band Director Phineas Sauernoet-Klinker replied emphatically, "Nonsense! There's always a need for advance preparation. Life, like football, requires practice. That's why we have colleges."

"That's right!" concurred Dean of School Spirit Barney Wrecking. "Life is full of competition, just like football. The important thing is to learn how to become

Number One through your own efforts by acquiring the tools you need. And we're going to have those tools when the college gives us the Astro-Turf and Dome for the stadium that we asked for."

Dr. Sauernoet-Klinker added that other plans include fireworks displays, school spirit convocations, and special displays in the Campus Center. "We've got something really BIG here, and going to share it with we're others '

e 3, col. 5 that he's a pinko. And the panty-waist liberal media didn't help either!'

Dr. Slick concluded by asserting that it is the job of the scientist to let the truth be heard. "Milof people will welcome lions your findings, if you can only get around the subversives in society and the great numbers of people who are blindly following them down the road of destruction." A reception followed the lecture, and Dr. Slick took the opportunity to dispense pamphlets and circulate petitions.

## "Im a Killer, Doc, But You're Genocide

Excerpts of a review of Thanatos, a novel by Frank Hilaire

"Tear down the walls" has become a familiar – to many, a frightneing – demand of the prison refrom movement. Yet as one con put it, "Those walls aren't to keep us in; they're to keep you people out!"

There's a lot of truth in that statement. The failure of our prisons and their stygian conditions are largely attributable to public ignorance of them; yet to most people, especially those with some power or influence, prison remains a dark and distant orb, inhabited by numbered anomalies who are heard of only when some spectacular and hence ewsworthy violence occurs. But since these barriers may not soon budge, the literary works of convict authors like Frank Hilaire (Thanatos), George Jack son (Soledad Brother and Blood In My Fye), James Blake (The Joint), and collected convict writings like Maximum Security, edited by Eve Pell and Inside, edited by Robert J. Minton, are presently the only means of breaching the walls. Notwithstanding the current mass of statistics and journalistic commentary, the writings of convicts themselves are the best means of discovering and understanding the experience of prison.

A

2. 20

Hilaire's novel *Thanatos* provides an especially gripping, mindblowing view of "inside" life through the eyes of protagonist Kirk Whalen. The eleven years Hilaire spent inside California's ancient, maximum security Folsom Prison are the background from which he constructs Whalen's story, from the blurred recollection of a violent crime through the bizarre world of "strip cells," "segregation," prison sex, knife and pipe battles, riots and escape attempts.

Like the old convict archetype, Whalen is a man capable of almost incredible violence. More than one skull cracks at his hands in this story, but he is more than "sick" - as understnading liberals might suggest he is possessed of an amazing lubidity regarding the phenomena that control his life. However, Hilaire does not attempt to portray Whalen as a saint, (which would be difficult at best), but rather as a man whose violent action in a moment of blind frustration resulted in an accidental killing and therefore in his imprisonment in a world where sava gery is an art. This is the cruel fundamental irony not only of Thanatos but of American prisons.

Despite all its venom for guards, wardens, shrinks and the inmates who assist them, *Thanatos* also portrays the "deviants" in these roles who feel compassion for the con and a sense of gnawing hypocrisy in the tasks of custody and punishment, such as the doctor who discovers the planters of marijuana in the prison hospital but does not report it.

Or there is Yancy, the tough, ugly guard who is Whalen's friend, almost his protector against the administration: "I'm a know-nothing cop...But I'm getting to be an old man, and sometimes when a guy starts getting old, he starts seeing a lot... Don't get blown off the wall, kid. There's always a way around that...Don't give this cesspool your air."

The bold artistry of Frank Hit ire, like prison itself, is shoch g and darkly depressing, yet it is also as enlightening and hopeful as an tale of men who, against all odd. stubbornly refuse to succumb. How amazed many readers will be at the heroism and love, the quickness and sensitivity that somehow glimmer through the twisted prison gloom of *Thanatos* -- the living form of death. THOUGHTS OF LONDON FROM ABROAD Part Two Street, Oxford Circus, Totten- yer; Lawrence Olivier, heav

by RANDY HALLMAN Randy was in London during Interim Semester for the course "Literary London" taught by Gary Adelstein.

The London Underground is one of the marvels of modern bigcity transportation. The fare is 13. 26. or 46 cents, depending, course on destination; and of while the ride is not luxurious it is fast and convenient. This fails to recall waiting author more than five minutes. And the miniscule wait is given an exthetic uplift by the huge diagrams the Underground system of which show the routes of the various lines: Northern, Central, Bakerloo, Piccadilly (the most recent and, hence, the deepest line), District Circle, Victoria The various lines are represented by different colors (for those of somewhat backward in our literacy), and the net effect of the diagram is that of some geometric abstract painting, a Mondrian gone mad. The patrons of the Underground are a varied lot: a friend remarked that London is the only city where subway fights are conducted in seven languages. There are Pakistanis, Turks, Indians, Africans, Greeks, Japanese (conspicuous by their omnipresent 35 mm. cameras) and Americans (conspicuous by their jeans). But whatever their nationality, the Undergrounders share a passion for reading and a freedom from the obsession New Yorkers have for gawking at other riders. They also wear neckties.

But one doesn't notice the other riders, for one is looking at the station signs: Marble Arch, Bond

ham Court Road, Covent Garden, Holborn. Holborn! The Aldwych Theatre. This is our stop. One gets out of the coach, looks for the Way Out (the British have never heard of an Exit), walds up the drafty wooden escalator to the ticket taker you misplace your ticket, best bet is to play the Dumb American Tourist. You will be believed), and leap out into the damp evening air in search of Culture. The gaudy lights of the Aldwych will attract you; the waiting line will depress you; the ticket price will delight you. For you can see the Royal \$2 Shakespeare Company do a 17th Century play on Tuesday evening (on Saturday the same actors will do James Joyce) and enjoy the luxury of gilt and woodcarv ing besides. The Aldwych is not tiny theatre and one's seat is high in the balcony, yet not a word passes over the audience. not a gesture is to subtle to receive notice. The sets are less elaborate than their New York counterparts but the quality of the acting more than compensates: John Wood as a recherche fop and later as a tormented writer; Alan Bates brilliant as an aging and alcoholic professor, spitting fire and sarcasm across the footlights (("God," he shouts when caught in his hook ey-playing by students and ad ministrators alike, "why don't they let us teach?"); the National Theatre doing Goldsmith with both style (the costuming) and hilarity (the antics of an overdressed and overpowdered dandy whose peruke's gentle odor could be sensed even in the last row of the Old Vic); Alec Guiness of the pear-shaped tones and wistful eyes as a blind law

yer; Lawrence Olivier, heavy and aging but still leonine in strength and able to navigate the turbulent waters of O'Neill's Long Days Journey into Night. And there is the experience of seeing the ballet at Covent Garden. Just seeing the tasteful grandeur of the Garden is worth the price of admission.

London looms large in memory and varied in sentiment: January roses in Kensington Park; rude waiters; excellent food (so long as it's not English food); friendly, courteous, articulate people; clean streets; more sunshine than one expects; far fewer bowler hats and umbrellas than one expects; stuffy guards at Buckingham Palace; exuberant tour guides; history leaping out at every square from massive grey stone buildings; midwinter grass greener than our springtime; monuments to Nelson and the Duke of York and Richard Coeur de Leon; fruit peddlers selling pink carnations. Most memorable of all the larger works, St. Paul's, tormented by Nazi bombs and hidden by office buildings, a revolving door opening on to the 235 steps leading to the Whispering Gallerv and the best seat in the house for viewing the color-rich alter and choir. Most memorable of all, the friendship and love of those with whome the London experience was shared.

Research has shown that the articles on this page have a significantly high coefficient of correspondence with the empiricallydetermined reality.

#### NEW: Urban Schools Get Less

(CPS) – A recently-released study by the Department of Health, Education and Welfare's Office of Education shows that a majority of U.S. urban school systems receive a proportionately smaller share of state education funds than do suburban and rural school systems.

The study analyzed the financial status of 87 big-city school systems during the 1967-68 school year. It found that, on a per-pupil basis, 83% received less than the statewide average for the distribution of state revenues.

It also was shown that while 65% of all big-city school systems were able to raise more, on a per-pupil basis, than the statewide average from local sources, the low level of state support usually resulted in total perpupil revenues below the state wide average.

Additionally, 64% of big-city school systems had assessed valuations for property taxes higher than the statewide average, 36% supported a tax rate that was higher than the statewide average, 24% supported a below average tax rate, and 40% supported a rate approximately equal to the average.

U.S. Commissioner of Education Sidney P. Marland, Jr., called for a reassessment by each state of "its school finance procedures to determine how fairly its education dollars are being distributed."

## DERELICTUS SPORTIUS ALBRIGHTIANUS: THE MAMET PAPERS

by SLANDER LIBEL ano PLAGER ISM

Preface

One cold, grey night last winter a brave but daring young Al-bright student broke into the office of the student newspaper, The Albrightian, to find out the truth behind what he read on the back pages of the weekly tabloid. Due to this un-named but heroic individual, we can now expose the truth behind all that drivel that has been coming out our way in the last few months. This is it, the first (and probably last) publication of THE MAMET PAPERS.

### **MELLINI, RICKETTS CITED** BY MAC COACHES

The Middle Atlantic Conference basketball coaches in the Northern and Southern Divisions of the league released their annual MAC 1971-72 All Star Team recently. If you don't know by this time, let one Albrightian be the first to inform you that Paul Mellini, the greatest guard ever to play at Albright, hit the pres tigice: lineup again this year. He joined Bear Banks of Philly Texule, Rich Henninger from Ly-coming College, Doug Kohler out of Dave Ocurr's Scranton University, and Bruce Shively another Herb Magee man. What's that? You don't know who Herb Magee is? He's the young man whose young team beat the young Lions two weeks ago here at Bohlman Center for the MAC Northern Division Championship. The Ram's Bill "Bear" Banks received MVP of the league. The tough forward from

Philadelphia will be back for Magee next year -- Darn it!

Ray Ricketts, who hid in the limelights this season behind his backcourt buddy Mel, received some well deserved recognition. He was placed in the Honorable Mention category along with another S-W-I-F-T guard from Philly Textile Don't ask for the name if you don't know. Just read about him the next time there's one second left in any game the Rams are tied in.

Wally Rice, whose PMC team got clipped of a win last week in NCAA quarter-final action for the Mid-East regionals by Tex-tile, received top MVP honors in the South. Tough Don Johnson, only a jumping junior for Roger Gaeckle's LVC men, garnered first place spot at the forward slot.

#### COLLOQUY COLLOQUY COLLOQUY COLLOQUY COLLOOUY NEEDS YOU!

Colloquy is indeed a learning experience, yet one must give in order to receive. Thus, the need to be satiated in this situation is an appeal to collect as much talent, endowment, faculty, aptitude, craft, competence, dexterity, mastery, or worldly wisdom acquired through your socialization and maturity. Colloquy wants your paintings, your musical talent, your creations, to display and otherwise utilize to make its weekend a success. Contact Beth Panter or Lynda Troutman (Box 98), if you are interested. We want you!

The middle Atlantic Conference basketball coaches in the Northern and Southern Divisions released their 1971-72 All-Star Team recently. Albright's Paul Mellini was named to the team for the second consecutive year. Joining Mellini on the first team are Bill Banks of Philadelphia Textile, Rich Henninger from Lycoming College, Doug Kohler from The University of Scranton, and Bruce Shively, also from Philadelphia Textile. The Rams of Philadelphia Textile defeated Albright two weeks ago in Bohlman Center to win the MAC Northern Division Championship. The Rams' Bill Banks was named the division's Most Valuable Player. He will return nest year to play since he is only a sophomore

Ray Ricketts, who started in the Albright backcourt with Paul Mellini, received some well de-served recognition. He headed up the list in the Honorable Mention category along with Philadelphia Textile guard Ed Swift

Wally Rice, of PMC College re-ceived the MVP honor in the Southern Division. PMC lost to Philadelphia Textile in the MAC Championship game. Don John-son of Lebanon Valley was voted to one of the Forward positions.
