## COLLEGE SPEEDS UP FOR DEFENSE

### Cook Tells Council Of Calendar Change

Elections Scheduled For Earlier Date

The regular meeting of student council was held Monday at 4:30. Dr. Cook reported on the changes in the social calendar that had to be made because of the condensed second semester program. The four open week-ends between Easter and the close of the semester have tentatively been assigned for organization dances as follows:

April 11—combined sorority semi-formal.

April 18—combined day student clubs semi-formal.

April 25—combined fraternity semi-formal.

May 1—Junior-Senior prom.

An exchange that is agreeable to both organizations may be made for any of the first three dates.

Elections will be held earlier than usual this spring because of the early closing of the college, and the orientation committee was asked to investigate the holding of elections.

Student council approved the sending of delegates to the conference of student council representatives that is to be held at Bucknell shortly.

### Alumnus Enters Army As Aviation Cadet

Ted Soja Trains For 2nd Lieutenantcy

Montgomery, Ala., Jan. 15 — (Special)—Theodore Joseph Soja, of Elizabeth, N. J., a former student at Albright College, is enrolled as an aviation cadet in the Southeast Air Corps Replacement Center, which has its headquarters here.

Soja is undergoing military processing and ground school instruction at the replacement center here preparatory to being sent out to one of the Training Center's primary schools for first flight instruction.

Upon completion of the course, he will be commissioned a second lieutenant in the Army Air Forces and assigned to active duty as a flying officer with a combat group or training unit.

Before enlisting in the Air Corps, Soja was employed as an assistant football coach and substitute teacher. At Albright, he was a member of Alpha Pi Omega and the Varsity Club. He participated in football, basketball and track. He received his B.S. in 1940.

### Musicale Tonight

The annual mid-year musicale will be presented by the orchestra and the glee clubs tonight at 8:15 p. m., in the dining hall.

The orchestra has prepared all new numbers for this concert. Miss Louella Moyer will be piano soloist.

### No Albrightian Next Week; Editorial Board To Meet

There will be no Albrightian next week because of examination week. There will be a meeting of the EDITORIAL BOARD at 1 p. m. today to discuss two very important matters which are pending. All members of the board are urged to be present. This does not mean the entire staff, but just the board.—Ed.

### U. S. Civil Service Announces Exams

Junior and Seniors Eligible To Apply

The United States Civil Service Commission has just announced two examinations of particular interest to college students. They are the annual "Junior Professional Assistant" and "Student Aid" examinations designed to recruit young college graduates and junior and senior students for positions in the Government service. Applications for both these examinations must be on file with the Commission's Washington office not later than February 3, 1942.

Optional branches included in the Junior Professional Assistant examination this year are (all in the junior grade, \$2,000 a year): Agricultural economist, agronomist, aquatic biologist, archivist, bacteriologist, biologist, chemist, entomologist, forester, geologist, junior in household equipment, olericulturist, pomologist, public welfare assistant, range conservationist, soil scientist, State Department Assistant, and statistician.

The Commission anticipates many requests during the next year from Government agencies for home economists. Accordingly, an examination has been announced for establishing employment lists of home economists trained in every field to fill positions paying from \$2,600 to \$5,600 a year. No written test will be given, but applicants will be rated on their education and experience. Because of the demand for qualified eligibles, applications will be accepted until further notice.

There are four optional subjects in the Student Aid examination: Engineering, political science, public administration, and statistics. Student aid positions pay \$1,440 a year. Usually employment is during the school vacation periods.

Copies of the examination announcements and application forms may be obtained at first and second-class post offices or from the Civil Service Commission, Washington, D. C.

### Defense Stamps On Sale; Buy Now From Treasurer

Defense Savings Stamps are now on sale at the Treasurer's office. Students are urged to buy as many stamps as they possibly can to help our war effort. "Let's stamp out the Axis with defense stamps."

### Dr. Masters Announces Changes To The Student Body This Week

Social Affairs Drastically Cut To Four Dances

The Japanese attack on Pearl Harbor on December 7, 1941, has affected the world in various ways. This week it cut into the very heart of Albright College life by precipitating a drastic change in the college calendar.

President Harry V. Masters officially announced these changes to the student body in the college chapel this week. Along with these changes Dr. Masters stressed the need for people to become aware of the seriousness of the situation and also the need for increased effort on the part of each individual.

The official changes as set forth by the administration are as follows:

1. First semester examinations—January 19 to 24, inclusive, except on Wednesday morning, January 21, at which time there will be Registration for the second semester.

2. Second semester begins Monday, January 26—8 a. m.

3. Spring vacation will begin Thursday, April 2, after the last class and end Monday, April 6, at 8 a. m.

4. Examinations for the second semester will be held May 11 to 15, inclusive, except on Wednesday morning, May 13, which will be used for advance Registration.

5. The Baccalaureate Service will be held Friday evening, May 15. Commencement will be held Saturday morning, May 16.

Other adjustments relative to other activities of the college will be in accordance with the announcement in Chapel on Monday and Tuesday, January 12 and 13, and future official notices.

### Dinners Cancelled

Other changes made in the schedule include social activities. The number of affairs was cut down to four, including a combined sorority dance, a combined fraternity dance, a day student dance, and a Junior-Senior ball. These affairs are to be semi-formal and all dinners have been cancelled.

College drama has also been curtailed by the omission of the next Domino production and the Greek play.

DR. HARRY V. MASTERS

### Registration Urged By Defense Council

Unity Committee Aids In Dual Drive

The College Council of State Defense recently formed at Albright "in order that ample protection may be provided in the event of an emergency" will initiate an "urging campaign" to have students support civilian defense registration. At the present time, the council is trying to establish the headquarters for registration on campus.

This means that all people, who now are doing any type of defense work, such as knitting, first aid, or airplane spotting, will be asked to register as a matter of record. Of course, registration will be voluntary; the council is asking only those students to register who have time to spare. Students need not necessarily register for active duty; they can register for emergency work such as canteen service.

The Committee for American Unity under Civilian Defense is assisting in the Red Cross drive headed by Miss Elsie Garlach. This year there will be a dual drive—(1) a drive for the annual roll call ordinarily conducted in April, and (2) a drive for war relief funds.

### Contribute Now For Future Peace

By ART MCKAY

There are many ways in which you and I may react to the world scene that is moving so swiftly about us, that is, indeed, shaping the future for all of us. Perhaps it will not be too much of an oversimplification to suggest that two reactions seem most common on our campus.

Some students seem to feel that they are unfortunate to be living in such trying times. They are able to see nothing ahead but dark

days for this world—days filled with depression and conflict, days in which the present-day order of things will crumble and finally perish. And, so, they have become sorry for themselves. They resort to various escape devices to avoid facing up to the realities of each new day's headlines and radio bulletins. Such people are convinced that there is little use, if any, in continuing the academic life or broadening one's cultural side.

## Save, Serve, and Sacrifice

Students, faculty, everybody—sit up and take notice. Do you realize that your country is at war? Do you realize that the security of your home is at stake? Are you aware that days of sacrifice and hardship are very near? Or are you the type that waits until the enemy comes within sight (and shooting distance) before you do something to protect the persons and property near and dear to you?

Snap out of it. Don't try to ridicule those who advise the saving of resources and the speeding-up of industry and education. Instead of using up your energy in ridiculous excuses and objections, turn that energy into some useful work—something that will bring us closer to the ultimate goal—VICTORY.

You may be (and rightly so) sure of this ultimate objective, but that doesn't mean that you should abandon the task and let the problems up to the governmental agencies. In the present crisis each and every person is under an obligation—it is his duty rather as a citizen of this great country—to do all in his power to aid in the complete repulsion of the enemy. This means not only knitting sweaters for soldiers or wrapping bandages for the wounded, it means also self-sacrifice. It means giving up many things which we have been accustomed to and which we are reluctant to abandon. It means saving time, energy, gas, oil, rubber, glass, and all the other numerous things which are irreplaceable in our country today.

We have not only a duty to perform to our country and fellow-citizens, but we have a duty to perform to ourselves. We must make the best out of our time and energy. We must keep ourselves physically fit, morally and spiritually on the alert at all times. WE MUST NOT SHIRK OUR DUTIES. The students of Albright are not shirkers; we are proud to present ourselves for service where we are needed the most. The list of the men of Albright who are active in the forces of Uncle Sam—at home and in the field—grows rapidly day by day.

So let's get behind those in authority and do our bit for the national defense. The least we can do is to stop raising objections to proposals offered for the benefit of the common welfare. Let's sit up and speed up for defense.

### Contribute Now

(Continued from page 1)

Why,—they ask,—when the future holds only a buck private rank or, at best, a second lieutenantship? Or, what?

But, there are other students who see in these trying times thrilling challenges in terms of making contributions that will help to shape the future. These students consider themselves fortunate to be living in the day of historical events that will shape the destiny of the future. They realize the tremendous import of the present struggle as a clash between two basically different ways of life, two philosophically opposed systems. They are not trying to escape the fact that each new day's headlines and radio bulletins inevitably affect them directly and indirectly. Such people are certain that in the days to come they will be the leaders who will help shape the affairs of this nation and, no doubt, of the whole world. And, so, they are seizing the opportunities to develop their capacities as men and women of learning in order to be better able to contribute knowledge and conviction to an upset world.

It seems to me that there are, unfortunately, far more of us who fall into the first group of students suggested than into the second. Perhaps we have failed miserably to grasp the significance of the times or become so inured to the

events that surround us that we continue to postpone the day of realization. Whatever it is, there are precious few of us who are stepping out of the daily routine of our lives to do something which will relate us very directly to the war. We are, most of us, living as though these were still the days of the Kellogg Peace Pact and vague international idealism. The facts, however, seem to be telling us that this is a world which is different as each new day breaks.

Can I urge you, as I urge myself, to waken to the seriousness of the situation? Can we not begin to see that we are able to make contributions NOW that may play a very big role in the future of all civilization? Can we discover that the times DEMAND of us the very best we have to offer?

If we believe that the way to lay the groundwork for a just and equitable peace is through defeat by force of the Fascist powers, let us be conscientious in living out that conviction wherever it finds us! If we believe that the way of non-violent, positive goodwill is the eventual basis for a just and equitable peace, here, too, let us be diligent in the translation of conviction into action!

In short, whatever you believe, do something about it! The times will accept no less!

## STRICTLY PARTIAL

RALPH FLEMING

(Switchboard Scene during the San Francisco trial blackout).

Hello, Operator: is it true that we're being bombed?

Operator—Of course not. Why don't you read the newspapers? This is only a trial blackout.

Oh, good heavens! This is exasperating. Here I've been sitting up here on the roof for the last two hours waiting for the bombers to come over.

Operator—The roof is no place to be during an air raid. You should be down in the cellar.

Ridiculous! How can anyone hold a penthouse roof party if they've got to go down in the cellar? Besides, it will probably make the Jap pilots nervous to have so many people watching them.

Operator—How many times must I tell you there are no Jap bombers over San Francisco this evening?

But you can't do this to me. I promised Claudia that—

Operator—Who's Claudia?  
Claudia is my niece. This party is in honor of her 12th birthday. I promised her and her little friends that we'd go up on the roof and watch the pretty green flashes of the anti-aircraft guns. Just like the 4th of July. Claudia always liked to see pretty green sky rockets. The explosions will be green won't they?

Operator—I don't know what color they are and I don't give a —! Do you know where I could find out?

Operator—Try writing a friend in London. I suppose she could give you the dope.

I don't think you operators know very much. After all—Oh, good heavens!

Operator—What's wrong now?  
One of Claudia's boy friends has been imbibing too freely (Pepsi Cola of course). He's just fallen off the roof. It's 17 stories down. Hold the line while I find out if he got hurt. Dear me! One has such troubles during these emergencies, doesn't one?

Passing thought: It's ironic that Japan's emperor, the Son of "Heaven," should be responsible for having "Hell week" at Albright called off.

## Hedgerovians Present 'Mr. Pim Passes By'

Dominoes Cancel  
'As You Like It'

On Wednesday, the Hedgerow Repertory Theatre from Moylan, Rose Valley, Pa., presented A. A. Malore's whimsical comedy, "Mr. Pim Passes By," in the college chapel. This performance was one of many that the Hedgerow players have presented on campus. Last year they appeared in Eugene O'Neill's "Diff'rent." The Hedgerow Theatre under the direction of Jasper Deeter is the foremost repertory theatre in the United States. It is also the largest from the standpoint of variety of repertoire and size of the permanent acting staff.

The Domino Club production of "As You Like It," which was originally scheduled for February 12 and 13 has been cancelled because of the recent curtailment of school time and social activities. The Passion Sunday Drama will be given as usual.

By ANNE ONYMOUS

Although we're a little late (national defense and all that sort of thing you know), here are some overheard New Year's resolutions:

Jack Gundlach — To say "hello" to his school chums, even though he's holding hands with his dream girl.

Mary Jane Hassler — To make all her New Year's Eves as happy as this last one. That goes for Nick, too.

Johnny Rudzinski — Never more to believe in Santa Claus. What a disappointment not to find Lana Turner in his stocking.

Rolfe Hastings—To invent tires that are flat-resistant.

The Co-eds of the junior class seem to have no trouble whatsoever with Cupid. Best wishes to Peg Thompson and Jane Spotts, who are sporting engagement rings.

Ginny Black, who became Mrs. Castner, believed in doing things right. She's now living in sunny California.

Why was Doris Kinsey so glad that Albright trimmed Ursinus?? That's a five dollar question. And we don't need the Quiz Kids.

What three boys have recently paid for a meal-ticket—and we do not mean to Mr. Van Driel. Incidentally, boys, how was that movie?

Overheard — Dr. Masters: "Talk about the absent-minded professor, here I am halfway home and my car is down at the college."

What, No Air Raid Shelter?

The switchboard union members recently held a union meeting at which time they decided to ask for a raise of fifteen cents per hour. It seems that so many inquiries were coming to the switchboard concerning the demolition of the science building steps that three extra operations were employed over the vacation, an extra switchboard set up, and six extra telephones installed in the science building.

The smoke from the debris is about cleared now and we find that the facial features of the science hall have taken on a new expression. Dr. Graham Cook asked me to dispel the fears that they were burying Santa Claus there. No, it wasn't even the construction of an air raid shelter, but merely a new foundation and cement job for the sanctuary of the Greek festivals.

All Out for Defense

They stick out like a sore thumb up in the chemistry department. I'm thinking about those gaudy signs posted over the light switches, signs which read—"Lights out—blackout." Dr. Cook is enforcing a grim program of chemical and light conservation as an aid to the defense effort. So grim has this battle become that the warning has

(Continued on page 4, col. 3)

# Lions To Meet Wildcats

The national emergency is beginning to take its toll of the sports world. This is the way it should be. All military men admit that the average college gridiron, diamond, and court performer make the best soldiering material. We also remember reading a statement made by General Pershing who said, "Give me a million football players and we can lick any army in the world."

Practically every college athletic team has felt the crisis already. Albright is no exception. We're glad to say that. Burd Miller and Bob Starr are the first of the school's athletes to leave school to help our nation win the war. They have enlisted in the Army Air Corps. Miller, a transfer from Hershey Junior College last year, was serving as president of the Class of '42 and also was a member of the varsity football and basketball teams. Starr played three seasons on the tennis squad. We're sure Miller and Starr have the best wishes of the faculty and students for success. Good luck, Burd and Bob!

Here's a prediction coming true. Johnny Smith, head basketball coach at Reading High School, told us last year that Jimmy Bunn and Dick Giles, then members of the R. H. S. varsity, would within two years develop into outstanding cagers. Well, if you have noticed the playing of Bunn, who is serving on the Lion frosh team, you can easily see Smith's prophecy coming true. The smooth moving youngster has been improving steadily with each contest and at times flashes signs of greatness. Giles, the other cager, is attending Cornell University and is the leading scorer on the yearling team there.

Muhlenberg and Franklin and Marshall are now tied for first place in the Eastern Penn Collegiate League with two wins and no losses. Gettysburg comes next with one decision, while our Lions trail with two victories and the F&M loss the only blemish on the record.

Philadelphia papers have been attributing Villanova's losing streak to smallness of the stature of the starting five. Quoting, "Villanova's team, which averages about five feet ten inches, must battle continually for possession of the ball, and, after a period of time, the team begins to tire—which is quite natural." Well, all we can say in answer to that is that the Wildcats better watch the tireless speed of Albright's little fellows tomorrow night.

Here's another war item affect-

## Zetas Top League With 30-15 Victory

Kappas Lead In Scoring

	STANDINGS			
	W	L	PF	PA
Zetas	7	2	309	237
A.P.O.	6	2	312	224
Kappas	5	3	348	234
Frosh	4	4	282	226
Daymen	2	7	240	401
Pi Taus	1	7	198	377

The battle for first place in the intra-mural basketball league makes the war in the Pacific look like a minor skirmish. So fast and furious is the action that the backboards at the Northeast Junior High School are sagging in the middle.

In the games last Tuesday evening the Zetas barged into first place by virtue of their 30-15 shellacking of the Daymen, while the A. P. O.'s were taking it on the chin from the Frosh 35-26. This is the first time this year that the defending champs have slipped from the top rung of the ladder.

The Kappas, the league's highest scoring aggregation, is in the spot behind the A. P. O.'s with five wins and three losses. The Kappas upset the A. P. O.'s apperly by giving the defending champs their worst beating of the year, 54-13, and thereby giving the Zetas a chance for the coveted bracket.

The Frosh, the hot and cold team, hold down fourth place with a .500 average. The lads from the top of the Ad-building created somewhat of a sensation by drubbing the Daymen, 100-33, and then losing twice to the Zetas, 45-34 and 36-27, and to the Kappas, 49-44, before knocking the A. P. O.'s out of the lead by a 35-26 victory.

In the fifth hole are the Daymen who have beaten the league leaders 35-20 and the last place Pi Taus, 43-18.

ing sports. Gettysburg students were recently refused admittance to the United States Naval Academy gymnasium when the Bullets frosh court squad played the Navy plebes. The reason: It was a necessary step taken to prevent possible sabotage from outsiders.

## Harris Expects Team To Rebound After F & M Setback Tuesday

KENNETH HOPKINS

## Manderbach Added In Place Of Miller

A sub-par Villanova cage crew invades the spacious Northwest Junior High School floor tomorrow night to tangle with the Albright Lions in an exhibition tilt. The main attraction is slated for 8:30 with the freshmen clubs of the two schools battling in the 7:15 preliminary.

Albright is expected to give the powerful Wildcat five a terrific tussle. The Philadelphians, who in other years usually ranked among the nation's best ten quintets, have had little success to date. The Wildcats have won six out of their last 11 starts. Last season they copped 13 out of the first 16 contests.

Coach Neal O. Harris feels that his dribblers will be rebounding after suffering an unexpected 59-50 Eastern Penn Collegiate League setback at the hands of Franklin and Marshall last Tuesday. The Red and White dribblers rank among the first ten Pennsylvania college teams with a won and lost record of five and two.

Harris will probably rely on his regular five of Dick Shollenberger, Bob Rhoads, Bill Spangler, All-Conference Kenny Hopkins, and sophomore Dewey Boltz to avenge the Villanova's 48-39 victory scored before a packed house last season. Certain to see much action in relief roles will be the up and coming George Urosevich, veteran Sammy Sehl, Jimmy Kane, George Horn, Paul Leinbach, and George Manderbach. Urosevich has been shining as an understudy to Shollenberger.

Burd Miller, reserve senior forward, will play no more. The former Hershey Junior College ace leaves for the Army Air Corps base at Montgomery, Alabama, as soon as final exams are completed. Manderbach has been added to the team to replace Miller.

For the first time in years, Villanova will not hold a height advantage over the Albrightians. The 'Cats have a starting combination that averages five feet ten inches. Tallest is Fred Gerland, six three pivot performer. A tricky duo is Captain Dick Gray and Red Klotz. They will pair at forwards. Bill Woods and Nick Drizen are the defensive stalwarts.

A rapidly developing Lion frosh five will face their stiffest assignment to date in the Wildcat cubs. Coach Harris will rely on Jimmy Bunn, Dick Stark, Russ Guensch, Les Pushman and Bill Darden to round out the first combine.

Lanky Walt Houser, regular center, had his appendix removed during the Christmas vacation and will not be ready for service until the end of the month. Tom McDonough is also sidelined with a broken elbow and may be out for the duration of the season.

## Faculty

During the Christmas recess, the German professors traveled extensively in the nearby states. Dr. Gerrit Memming attended the Modern Language Association Conference at Indianapolis, Indiana, from December 29 to December 31. Professor Paul Schach, who was also present, participated in a symposium on Pennsylvania German. Professor Schach and his wife continued further to the Ecological Student Conference at Naperville, Illinois, which Dr. Arthur Gingrich, Dr. Milton Gelman, Miss Anna R. Benninger, and approximately 30 Albright students also attended.

Last Saturday, Dr. Memming, Dr. Gingrich, and Professor Schach attended a symposium on Pennsylvania German, which was sponsored by the Karl Schurz Memorial Foundation in Philadelphia. In the evening, Professor Schach attended a dinner which was held by the Germanic Association of the University of Pennsylvania in the Hamilton Court Apartments of Philadelphia. The dinner honored Dr. Uppvall, professor of Scandinavian languages at the university.

President Harry V. Masters was a delegate to the recent meeting of the Pennsylvania State Education Association held in Harrisburg on December 29, 30, and 31. At this (Continued on page 4, col. 1)

## Zetas Elect Officers For 2nd Semester

Frank Bertino, of Port Chester, New York, succeeds Donald Buxton as President of the Zeta Omega Epsilon fraternity at the semi-annual elections held Monday night. Charles Werley became the new vice president with Vester Peters gaining the secretary's office. Paul Carls will serve as Chaplain.

(Continued from page 3)

meeting, he was one of the 23 delegates elected to represent the PSEA at the National Education Association meeting that is to be held in Denver, June 29 to July 2, 1942. Professor W. I. Miller and Dr. V. C. Zener also attended this PSEA meeting.

From Friday, January 2, to Monday, January 5, Dr. Masters attended the annual meeting of the Association of American Colleges and the National Conference of Church-related Colleges in Baltimore, Maryland, at the request of the federal government.

Professor John C. Evans and Professor Henry G. Buckwalter attended the meeting of the Allied Social Science Association at Hotel Commodore, New York City. From there, Professor Buckwalter headed for Pico Peak in Rutland, Vermont, to test his new set of skis.

Miss Esther Fenili and Miss Ethel Norton spent several days in the metropolis of New York. Professor Lewis Smith enjoyed his moments of leisure supervising the alterations to the infirmary.

**Pi Gamma Mu Meets; Wolfe Presents Paper**

Pi Gamma Mu held its regular meeting on Wednesday, January 14. Dr. Milton Geil reported the results of an election held determining the persons to whom bids to join Pi Gamma Mu will be sent. The date was set for the formal initiation of those accepting the bids.

Margaret Wolfe gave a very interesting original paper entitled "A Sociology of Swimming Pools." It dealt with an isolated group of people in Bradford County who have intermarried, resulting in physical, mental, and moral degeneracy. A discussion followed.

gone out that all students found wantonly wasting materials will be forcibly ejected from the department.

**Mr. Hill—Ornithologist**

On Monday evening, the Skull and Bones Society heard a most interesting illustrated lecture by Mr. Hill of Pricetown on "Nesting Time." The lecturer presented some remarkable colored slides, many of which were taken near our own school grounds, on the aviary and floral life of Berks County.

**On Defense**

Your columnist heard that the "best way to lick Hitler is to lick defense stamps." (Submitted and contributed to your columnist by Seymour Mendelsohn—due appreciation and thanks are hereby extended.)

**WAR AND TELEPHONE SERVICE**  
 ★ ★ ★ ★ ★

**T**HE Army, the Navy, the Federal Government, Civilian Defense and War Industry have first call on the nation's telephone facilities. Our first and foremost obligation is to furnish them with fast, dependable telephone service, wherever and whenever needed.

In spite of staggering demands for telephone service, further expansion of telephone facilities is sharply curtailed by shortages of metals and equipment. Therefore, we must get the absolute maximum use out of the existing telephone plant.

Every telephone user can help to keep lines open and speed the service by following a few simple rules:

1. Be sure you have the right number before you make a call.
2. Don't ask "Information" for numbers that are listed in the directory.
3. Answer all calls as quickly as possible.
4. Be sure to "hang up" after each call. Don't let a hook or anything else hold the telephone "off the hook."
