LIONS FACE LASALLE TOMORROW

FACULTY ENJOY VARIOUS TYPES OF VACATIONS

Many See Century of Progress at Chicago; Others Decide to Continue Education

Wasn't that depression terrible! Had it not ended last spring, the faculty would have had a dull vacation. But, prosperity turned the corner and found Dr. Klein up in Nova Scotia enjoying the cool northern breezes.

Wearied from organizing summer school, Dean Walton looked forward with much anticipation to a summer on the open road. After an address to the Lions Club on the geological history of Pennsylvania, he started out, not to conquer new worlds, but to find new information on the old world. For three weeks he roamed the county collecting geological material. His journeys brought him to that great Century of Progress, where he succeeded in getting nothing but aching bones. A visit to the Canadian National Exhibition climaxed his tour, and he then responded to the call of home.

After educating educators in education at summer school, Professor Miller headed for the Thousand Islands. Whether he visited all of them is not known, but it is doubted, since he is back again on the campus.

Miss Shaffer, it was found, is the one faculty member who shuns publicity. After cross-questioning, she told that she did not attend the Fair. It is surmised that she vacationed at her summer home in Lock Haven.

Summer school claimed much of Professor Zener's time. Short trips constituted his vacation. Spare moments were spent worrying over the success or failure of his present group of student teachers.

Miss Garlach chose camping in the Pennsylvania mountains as her means of recuperation after a strenuous year in la classe de francais. She came back refreshed by the pure mountain air.

Again the Century of Progress beckoned to our faculty. Professor Voigt responded. It is claimed that all literary minded people except Shakespeare were there.

Doing something new and different was Professor Smith's idea this summer. So he built a cabin in Catawissa. Secluded from the world, he spent his remaining vacation reading.

(Continued on Page 2)

SKULL AND BONE CLUB ENJOY SCIENTIFIC PICTURE

The Skull and Bone Club held its first meeting of the year, Monday evening, October 9. President Bergstresser first conducted a business meeting at which new men were discussed for prospective membership. Plans were made in connection with the program of future meetings. At the next meeting Professor Green will give an extensive report of his research work.

A motion picture, entitled "Man Against the Microbe," was shown to the club. All students interested in scientific study were welcomed and an especial invitation was given to pre-medical men.

JOHN BOSTWICK NAMED PREXY OF YEARLING CLASS

Ainslie Wyle and Jean Boner Will Represent Freshmen on Student Council

As a result of the Freshman Class election conducted by the Student Council Thursday afternoon, John Bostwick, of Sayre, Pa., was named President.

William McClintock, of Hughesville, Pa., was elected vice-president of his class, while Jeanette Henry, of Wyoming, and Gene Barth, of Philadelphia, will serve in the capacities of secretary and treasurer, respectively.

Those elected from the class of '37 to membership on our Student Council were Jean Boner, of Mt. Penn., and Ainslie Wyle, of Plymouth, Pa.

SOPHS CONDUCT ANNUAL INITIATION ON PENN ST.

"Rain, rain, rain, oh Allah, rain," implored the Frosh. All evening they had prayed and begged for rain; and the skies had remained clear. No clouds were in sight, nothing marred the beauty of the night. Nothing that is, until they reached Fifth and Penn; and there their prayers were answered. It literally rained bucketfuls and an evening of Frosh initiation was ended.

The fun (?) began at Eleventh and Penn, where the roll was taken and the plebes were given instructions for the evening. Numerous paddles were much in evidence and were well wielded, if the testimony of the pajama-clad yearlings is to be believed. Following the usual custom, a parade was conducted down Penn Street and many a blushing damsel was proposed to and (I blush to tell you) kissed. And believe you me, these Frosh showed a technique far in advance of their tender years.

A large crowd enjoyed the melee which occurred when the shoes of the Frosh were piled together and the order issued to "GO GET THEM." After this, a peanut race was held, and many a grimy nose testified to the earnest efforts of the contestants, induced no doubt by the application of paddles at moments of faltering.

One of the outstanding features of the thoroughly enjoyable evening occurred when an energetic but unwilling Freshman was propelled up the pole of a street light and instructed to blow the light out; surprisingly enough, he failed and great was the disappointment therefrom. Jim Schwenk, in charge of the inquisition, is quoted as saying that the light must have been of an inferior quality since he knew that other Frosh, in the past, had succeeded where this one had failed.

The evening came to an end as the inferior class, performing a snake dance up and down Penn Street, sang and yelled the familiar songs and cheers of Albright.

FROSH STATISTICS GIVE CLASS GOOD RECOMMENDATION

Class of '37 Has Unusually High Scholastic Record; 45 Are Honor Students

The incoming Freshman class comes to Albright highly recommended, according to figures just released by Dean George W. Walton. No less than 45 per cent of the class ranked in the first quintile of their high school and preparatory school classes, while an additional 20 per cent ranked in the second quintile.

The class numbers 95, 26 of whom are from Reading, 21 from elsewhere in Berks County, 88 from elsewhere in Pennsylvania than Berks County, six from New Jersey, three from New York, and one from Maryland. Reading High School graduated 21 of their number, and other Berks County high schools 22.

The denominational affiliations show great variety. The Lutheran Church leads with 21 representatives, the Evangelical Church has 19, the Methodist 13, the Reformed 10, the Hebrew 7, and the Presbyterian 5. Twenty-nine members of the class are pursuing the Arts course, and an exactly equal number the Science course, while 14 are pre-medics, 15 are studying Business Administration, and 8 Home Economics.

Smith's Eleven Express Confidence in Their Initial Encounter With the Philadelphia Team

VILLANOVA NEXT GAME

Oslislo to be Only Change Made by Smith in Red and White Lineup

Albright's football stalwarts will meet the first fair test of their ability tomorrow afternoon when they journey to Philadelphia to engage in battle with the La Salle College eleven.

Johnny Smith's boys are out to record their first victory of the current season against an experienced but light band of La Salle Explorers. The Quaker City squad, which is coached by Marty Brill, Notre Dame's All-American blocking halfback, has yet to win its initial 1933 decision. In two starts this year, La Salle has lost one to Catholic University, and last Sunday tied Niagara University.

In regard to choosing the winner of Saturday's tussle, this can be said of the comparative records of the contestants: Last year, it will be remembered with some pride, Albright, boasting one of the best teams in its football history, scored two touchdowns on the mighty Cornell eleven, only to be submerged under a 40 to 14 count. Niagara held that same Cornell powerless to a scant 7 to 0 win.

But that was last year, and La Salle will need more than their 1932 newspaper clippings to get by Albright's fighting Lions. In fact, so certain the we of the Red and White's chances that we are willing to prognosticate an Albright victory by a margin of three touchdowns.

Probable lineup:

Albright	La Salle	
Haldeman	LE	O'Donnell
Gass	LT	Baumgardner
Lease	LG	Borden
Karlovich (C)	C	Dooley
Bottiglier	RG	Bradley
Hepler	RT	McKernan
Oslislo	RE	Comey
Hino (C)	Q	Lucas
Orr	LH	Bahr (C)
DeFranco	RH	Knox
Iatesta	P	Gallagher

GLEE CLUB TO HOLD ANNUAL TRYOUTS WED.

The Glee Club will this year again be directed by Professor Hunt. At a meeting of the old members, Wednesday noon, it was decided that the annual tryouts, both for accompanist and for membership, should be held Wednesday evening at 7 o'clock.

There are at present nine members composing the club. This leaves a vacancy of five, the full quota of the club being fourteen. All Freshmen and upper classmen who have talent, either vocal or instrumental, are urged to try-out for the Albright College Male Chorus.

The Albrightian staff will meet Monday noon at 1 P. M. Very important matters will be discussed and every staff member is urged to be present.

Literary Column

RADIO REVIEW

By James Doyle

"One day, as I was sitting in me study contemplating de fate of man, in comes me butler, Meadows, and he says to me —" Introducing the man of many sides —Jimmy "Schnozzle" Durante. Temporarily supplanting Eddie Cantor on the Chase and Sanborn hour, "Schnozzle" has set the radio world on its ear. Ably aided by Ruth Etting, one of the better radio entertainers, and an improved orchestra under Rubinoﬀ, Jimmy puts on a swell program of perfectly senseless jokes and songs.

The Baron Munchausen is again on the air. The Baron is back at his old stuff, and although he is apparently very popular, his gags are at times far from mirth-provoking. The only redeeming feature about the program, it seems to me, is the fact that some of the best bands in the country support the Baron's gray-haired repertoire.

George Burns and Gracie Allen are as good as ever (on Wednesday nights) and are flanked by the incomparable Guy Lombardo. George and Gracie are possibly the most original and witty entertainers on the ether today, and certainly Guy has no rival in the field of music.

May we take this opportunity to apologize for the negligence of the circulation department in the past two years and to remind the Alumni that a careful check-up will be made in connection with the subscription list this year. If a college newspaper is to flourish, it is essential that her Alumni contribute and co-operate in the same measure as do the faculty and students of the school.

FACULTY REPORT ON VACATION ACTIVITY

(Continued from Page 1)

According to custom, Myerstown entrusted its government to the capable hands of Dr. Fluck. Our learned psychologist gathered many new theories in his experiences with the man of the universe.

The long, vice-like claw snatched Dr. Gingrich from our midst and carried him away to those lake shores where he witnessed the happenings of the last one hundred years. After a session of summer school, the vacation was welcomed.

Hours of experimenting in the biology Laboratory kept our society leader of the campus from straying too far from home. An occasional trip to Philadelphia was all that Dr. Horn could boast of in his summer vacation.

Rumor has it that Miss Innis spent the summer in Europe. She says she was at the World's Fair. Who is right? That she spent some time in the mountains of Pennsylvania is true.

Professor Hamilton's summer was spent in doing historical research work in the library of New York and in the library of the American Antiquarian Association of Worcester, Mass. He also attended the convention of the New York State Historical Association at Ticonderoga, New York. His vacation is still due.

Since Spanish was taught at the summer school, Dr. Fenili stuck to the ship. Occasionally one could find him during the warm months motoring in New York or New Jersey.

Dr. Cook astounded civilization by going native. His beard and vegetables proved that Stony Creek has fertile ground. Among other achievements, he became the father of a baby boy, Robert by name. Advertising college life was one of Dr. Cooke's side activities. Interesting movies taken by him on Albright's campus were shown at several conferences and churches.

Visitors at the St. Peter's Episcopal Church of Germantown found Professor Hunt at the Organ console this summer. He substituted there while studying organ under Alexander McCurdy, of Philadelphia.

Dr. Greth devoted his Sundays to preaching in nearby Lutheran Churches. Idle hours were spent at Ocean City and at Lake Wallenpaupack.

Enriched by his experiences at Albright, Dr. Houk, ex-professor, did research work at the Harvard Library preparatory to the writing of a book.

Something novel was introduced to the German students this summer. Professor Gode-Von-Aech held a German house at his home. Five students lived, spoke and ate German for the greater part of the summer. The professor became famed for his German dishes. Professor Knapper and Professor Speiche studied for the summer. The physicist was at Penn State and the mathematician at the University of Pennsylvania.

After summer school, Professor Evans escaped to Lake Sheridan. There he did nothing but eat, sleep and fish. Did you hear about the big fish that got away from him? The Laurantian plateau, north of Montreal, was his next stop when the fish from Lake Sheridan became too wise.

Chief among the scholars in the Department of Economics and Business Administration at Columbia University was Professor Buckwalter, who was studying for his Ph. D. The fact that his car was stolen in New York proves that thieves in that section are hit by the depression. His second car gave out on the way to the Century of Progress. No, it was not to be exhibited in the historical collection; he parked it outside of the grounds.

Mrs. Currier also spent the summer at Columbia. Archaeology was the subject pursued.

Another member interested in agricultural pursuits (farming) was Professor Green. Additional time was spent doing research work at the University of Pittsburgh and studying paleontology in southwestern Pennsylvania.

The "Y" Column

THE "Y" ROOM

An old cry on Albright campus has been lack of contact and fellowship with the day students. Boarding students have been content for the most part to know the day students by name and perhaps are conscious of their presence during the school day. Can a unified Albright spirit exist on such a campus? The Y. M. C. A., through the medium of a "Y" room, desires sincerely to bring the separate groups into a better understanding of the several points of view. Accordingly, there can no longer be a day student room, as such; neither is the room solely for Y. M. C. A. cabinet interests; rather, may the "Y" room be, in truth, a college room of fellowship, in which all types of thought are to be respected and the brotherhood of man to reign supremely in a united effort to approach an appreciation of Albright spirit and its implications.

OTHO HOOFNAGLE.

The absence of Dr. Heck at Vespers on Sunday was conspicuous, but the students manifested their ability and willingness to "pinch-hit" with a real song service.

Project yourself into the future for the next few weeks with the "Y." Dr. Gingrich, Vespers Sunday afternoon, followed by an interesting and colorful college sing by the fire after supper; the college Y. M. C. A. Hallowe'en social on October 27.

WHAT HO!

Mystery!

Music!

Drama!

All on November 10.

"Thoughts without content are empty, perceptions without conceptions are blind."

Coach Smith and Mrs. Smith spent three weeks at Northwestern University, where John attended coaching school. In the August number of Practical Home Economics appears an article written by Mrs. Smith in her spare moments.

Those people vacationing at a certain hotel in the Poconos were fortunate in having as their hostess Miss Kulp. Regardless of her position, her tennis form did not suffer.

After saying a fond farewell to his books, Mr. Lubold joined his son in West Virginia and visited his daughter in Ohio. From there they went to the Big Fair.

While his wife was in Holland, Jan, the chef, went places. First he attended the Y. M. C. A. camp at Long Valley, New Jersey. While there, he made the front page of the daily paper by actually hiking three and one-half miles and climbing down a ravine, 600 feet deep. No wonder he looks so thin. Naturally he went to the Fair. Other places visited were Canada, Niagara Falls, the White Mountains, and Maine.

What about that depression?

Take It From Me . . .

Jay Fay

I have heard considerable talk around the campus for the resumption of the annual Frosh-Sophomore football game. There is no event during the college year in which interest runs so high as this game. The loyalty and spirit of each class is clearly shown, and it gives those who are willing a chance to put forward their own class. From the freshman point of view, they are all set and just waiting for a chance to get at their traditional enemies. If the college authorities will but grant permission for the renewal of this traditional gridiron classic, we can look forward to a good game of ball when the season is over.

There is one thing we must give Walter Johnson credit for in his picking of the World Series—he can take it. The "Old Fox" picked his old team mates every day and they came through but once. Not to praise myself, but I was fortunate to call the winner each day. I had seen Hubbell and Schumacher pitch a few times this summer and thought they would come through. I didn't have much faith in Fat Freddy and picked him to lose. Just as a reminder to some of my friends who are constantly giving me the bird about my home state, "the cradle of democracy," George Davis, who with Mel Ott shared the batting honors of the series, fails from the great state of Connecticut. (Do you get that "Moon?")

From what I have seen, there are a great many of the boys who are convinced that the winning team will score more runs in one inning than the losing team will in the entire game. Eh, Oritsky.

It is interesting to note that many of our past football players are making history with various professional teams in Pennsylvania and New Jersey. Most notable are the deeds of Franny Hutton and Charley Haines, who are playing with the Reading team. Al Dittman is going great guns with a Jersey aggregation and Cwiklinski is the bulwark of the Frankford Yellow Jackets.

Saturday we are going to take a short trip to Philly to see the Lions go into action. This will be the first opportunity for many of us to see this year's eleven in action, and we should all come back with an idea of the type of team that we have. As it has always been my custom in the past to try and pick the winner in our athletic contests and a probable estimate of the score—I think that Albright is the better team by three touchdowns. Let's hope I am right for a change.

I understand that we have some golf maniacs upon the campus, and one of them is just crazzzzzzy over the 18th hole at one of the local courses.

Reading Hi losing to Allentown has brought forth more excuses and alibies than I have ever heard in all my life. The local alumni think that they were robbed. I saw them play a team from Lancaster and they defeated them by an overwhelming score. They have a great backfield for any high school, but their line needs plenty of seasoning, and the cause of their defeat probably is in that department. Here is hoping that they have a successful year.

I think that I will go to the Villanova-Bucknell game in Philadelphia Saturday, and see for myself what kind of team Villanova has. I think that Bucknell will take them over plenty after the exhibition that they put up against Ursinus. Ursinus was the weakest team that Albright faced last year, and it does not seem probable that the Bears have improved that much.

I guess I had better stop, as last week the Editor remarked that my column was quite long—and I don't know whether it was a compliment or a hint. I'll be seeing you.

CO-CAPTAIN HINO

Co-captain Stanley Hino hails from Shenandoah, where he starred in all sports and was the only four-letter man in the school. "Stosh," as he is better known to the students, is a three-letter man at Albright. He has been one of the outstanding stars on the football team and has played shortstop on the ball team for the past three years. Last year he took a try at basketball and proved to be one of the mainstays of the team. He is a member of the Lions Club and the Varsity A Club. Stan is rated as one of the best students in the college. As far as we can determine, he has no big moment, as he is very quiet and bashful, but don't take my word for the last part.

Coach Smith Says . . .

Although his boys realize that the going will be tough against LaSalle Friday night in Philadelphia, nevertheless they are confident that their own offensive will get rolling. The seven first downs which they made against a strong Fordham team made them realize that they too can "carry the mail."

NON-FRATS CAPTURE FIRST TOUCHBALL GAME

Athletic Director John Smith has started his intramural sports program for the fall with a touchball league. Touch football has become quite popular in the past year among the students at Albright, and this year Coach Smith thought that the sport would go over in a big way with the students.

The rules of the game are the same as football, but one may not tackle the man with the ball. All the other rules of football are in effect. The team having possession of the ball is given eight downs to make a goal and if they fail they lose the ball.

There are six teams in the league—Non-Frats, ZOE, APO, KUP, PTB, and Lions. The first game was played on Tuesday with the Non-Frats taking the PTB into camp 12-0. The Lions, who failed to make an appearance, forfeited their first game to the ZOE.

All games are to be played at 4.30 on the day schedule. The schedule:
 Oct. 10—NF-PTB, Lions-ZOE.
 Oct. 12—ZOE-KUP, NF-APO.
 Oct. 17—KUP-PTB, Lions-APO.
 Oct. 19—Lions-KUP, NF-ZOE.
 Oct. 24—APO-PTB, NF-Lions.
 Oct. 26—APO-KUP, PTB-ZOE.
 Oct. 31—NF-KUP, PTB-Lions.
 Nov. 2—ZOE-APO.

Did it ever occur to you that a Buddist would be in a terrible fix if he found half of a worm in an apple he was eating? It might have been his mother-in-law. Who knows?

Around the Campus . . .

On Tuesday evening Professor and Mrs. Graham Cook entertained Professor Cook's "lab" assistants at a steak supper, which was cooked over an open fire. Those present were: Helen Yohn, Robert Hollinger, Paul Fye, Roland Kennedy and Stewart Wick.

Among other things on the campus I like about the Frosh this year is the way the girls button. Careful now—don't strain your vocal cords.

Final plans for the Alpha Pi Omega fraternity Hallowe'en dinner-dance have been made. It will be held Saturday, October 21st, at South Mountain Manor, and will be a semi-formal affair.

What trials and misfortunes are besetting the day students these days! They have now to suffer the indignity of playing ping-pong in the gym. Poor things.

The Kappa Upsilon Phi fraternity is formulating plans for a fraternity smoker, which is to be held the latter part of the month.

What well-known grad fumed when his babe was proposed to on Penn Street, although he didn't show his resentment?

Joseph Ephart has been elected treasurer of the Pi Tau Beta fraternity in place of Lamont McMillian, who did not return to school this year.

Watch your Shakespeares, everybody exposed to the course; there may be a fly in the ointment.

Ann Wetzel and Mary Ellen Venus, both of the class of '33, and members of the Pi Alpha Tau sorority, visited friends on the campus over the week-end.

Russel Bonney, Maurice Male, William Maier, Levi Snader, Albert Mallet, and Charles Gruber, all alumni of the Alpha Pi Omega fraternity, visited the quarters over the week-end.

Then there was the Freshman who wanted to know who the spectators would be if everybody was in the parade.

The Home Economic Club supper-bike will be held this Thursday at Bernharts dam. Miss Florence Innis, Mrs. Nettie Currier and Mr. and Mrs. John Smith will be the chaperones.

Some Frosh wanted to know who was going to form the "Albright Egg" (A) in the parade. Can you imagine?

Stanley Brookes and Charles Roberts, both alumni of the K. U. P. fraternity, were week-end visitors at the fraternity. Brookes is assistant football coach at Kearney H. S., Kearney, N. J., and Roberts is associated with the Philadelphia Dairy Products Company.

Sarah Hoffman, president of the Phi Beta Mu sorority, attended a birthday party on Saturday evening, which was held in honor of Miss Emily Yocum, a past president of Phi Beta Mu. Mrs. Betty Wanner Hill, another alumnus of the sorority, was also present.

One of the worthwhile things someone could do on the campus would be the establishing of pole sitting contests to put into use some now unusable and unsightly property.

The Girls Day Student Club will hold a Hallowe'en party on the 26th of the month at their headquarters.

What Sophomore's face was red when he ordered a Frosh to walk into a hot-dog emporium and secure a pup without paying for it, when the yearling did so and got away with it?

Katherine Winter and Betty Rimel-spacher will be the guests of Catherine Yerkes at her home in Huntingdon Valley over the coming week-end.

Judging by the number of people to be found in the library in the evening, one would think we were all a bunch of students.

Sally Caramana will attend the home-coming dance of the Eta Delta fraternity of Upsala College, East Orange, N. J., on Saturday evening.

Someone suggested that the key to the sun dial should be kept in a special place so the Frosh wouldn't have to hunt for it every year. We must admit it certainly is careless of the one who mislays it.

Many of the students plan to attend the La Salle-Albright game at Philadelphia on Saturday.

THIRTY-FIVE CENTS

Isn't Much!

Most college allowances go only so far. But even at that you can probably spare 35 cents once a week.

It isn't much—35 cents—hardly the price of a movie or hair cut. Yet for 35 cents, if you know the ropes, you can telephone as far as 100 miles.

That probably means you can telephone home! Can 35 cents buy more pleasure than that? You can pick up a budget of family news . . . talk over your problems . . . share your interests. There's nothing like a "voice visit" with the folks back home to brighten your whole week—and theirs.

TO TAKE ADVANTAGE of the LOW NIGHT RATES...

Call after 8:30 P. M., and be sure to make a Station to Station call.

That means, ask the Operator for your home telephone, but not for any specific person.

If you've fixed a date in advance, the family will be sure to be there.

35 cents at night will pay for a 3-minute Station to Station call to anywhere within 100 miles.
