## Assembly To Feature "Rebels", Physics

### Physics Department To Sponsor Reynolds

Dr. George T. Reynolds of the Department of Physics at Palmer Physical Laboratory, Princeton University will serve as a visiting lecturer at Albright College, Reading, Pennsylvania on Wednesday and Thursday, December 13 and 14.

He will visit under the auspices of the American Association of Physics Teachers and the American Institute of Physics as part of a broad, nation-wide program to stimulate interest in physics. The program is now in its fifth year and is supported by the National Science Foundation.

The American Institute of Physics is a federation of the five principal societies in the field of physics research and teaching including the American Physical Society, Optical Society of America, Acoustical Society of America, Society of Rheology, and the American Association of Physics Teachers.

Lectures, informal discussion, assistance to faculty members concerning curriculum and research problems in physics, and talks with students will feature Dr. Reynolds' visit. Professor C. T. Chu, Chairman of the Department of Physics at Albright College, will be in charge of arrangements for Dr. Reynolds' visit.

#### Native of Trenton

A native of Trenton, N. J., George Thomas Reynolds was graduated from Rutgers University in 1939 with Phi Beta Kappa honors. He took his M.A. and Ph.D. degrees at Princeton, serving successively as a research assistant and Fellow in Physics, prior to departing for two years of military duty.

Dr. George Thomas Reynolds, a leading research director in the field of cosmic rays and high energy nuclear physics, worked during World War II on shock waves with the Manhattan Project at Los Alamos, N. M. His present major interest developed after the war.

Upon his return to the Princeton campus in 1946 he was named an assistant professor of physics, was promoted to associate professor in 1951 and to professor in 1958. Since the academic year 1949-50 he has been in charge of a group working in cosmic rays and elementary particles under a contract with the Office of Naval Research.

During the academic year 1955-56 he received leave to pursue research  
*(Continued on Page Two)*

### Work Camp Successful

Work Camp—Under the able leadership of Ray Sommerstad, the Albright College Y staged a very successful work camp. In cooperation with the Reading Fellowship House, approximately 50 Albrightians went into the homes of needy families in Reading to help paint, plaster, and repair. The students spent the entire Saturday, with a break for lunch at the Fellowship House, on the job.

The Y wants to thank all those who supported the Work Camp, and reminds those who could not attend that there will be another Work Camp during second semester.

### Christmas Dance To Be Held Friday

Friday, Dec. 8, the Sophomore and Freshman classes will sponsor an all-campus Christmas Dance, to be held in the field house from 8:30 to 11:30 p.m. This will be the first time in two years that a Christmas dance, formerly almost an annual custom, has been scheduled.

Providing the music will be the band of Don Noecker, a local musician with a seven piece group. The committee for the dance includes Betty Bogar, '64, as General Chairman; Karen Chamberlain, '64, refreshments; Paul Jacobs, '64, decorations; Harold Murray, '64, tickets; and Walter Alsegg, '64, publicity.

The tickets are \$1.50 per couple and everyone is invited to attend.

### Christmas Party To Be Held On Sunday

The Christmas Party for underprivileged children will be held on Sunday, December 10 in Krause Hall. The party will begin at 2 o'clock with games, songs, a puppet show and the arrival of Santa and his helpers filling the afternoon. After the children have received their toys, they will then be treated to a meal in the college dining hall.

The Christmas Party has been a YM-YWCA sponsored event for several years. Children from the Greater Reading area are chosen through various agencies to attend. The children range from 21 months to 12 years of age, both boys and girls. Students may adopt a child for \$1.00 in the Administration Building all this week. Adoption ends Friday. The \$1.00 goes toward paying for the gifts and the meal that each child receives.

The party committee consists of Barbara Buchter, '63, George Reagan, '62, and Joan Kolm, '63. Paul Lucia, '62, is in charge of transportation; Diane Kessler, '63, decorations; Martha Glosser, '63, registration; Susan Shirm, '63, dinner; Janet Blumberg, '63, entertainment; Dan Cormier, '64, toy call; Catherine Moyer, '63, stockings; Judy McGovern, '64, jewelry; and Joan Kolm, '63, publicity.

### Barnes To Speak On Book-Of-Semester

The Book-of-the-Semester Committee is pleased to announce that Dec. 7, Joseph Barnes will speak in assembly on some phase of *Reveille for Rebels*. Barnes is a close friend of the author of the book, James Warburg.

The speaker has a long background of journalistic and government activities. He attended Harvard University (A.B.) and King's College, London University, was reporter for the *New York Herald Tribune*, and was Chief of Bureau in Moscow and Berlin until 1940. He served as Deputy Director, under the late Robert E. Sherwood, of the overseas branch of the Office of War Information from 1940 to 1944. Barnes then became Foreign Editor of the *Herald* until 1948 and was editor of the *New York Star*, 1948-1949.

Mr. Barnes is now the senior editor of Simon and Schuster Inc., publishers. He is the author of a biography of Wendell Willkie (1952) and the translator of many books from French and Russian. In addition to the activities and responsibilities implied previously, Barnes is now teaching a course called "Ideas in the World Today" at New York University and a course on contemporary world politics for the management training division of Western Electric Company. He was formerly on the faculty at Sarah Lawrence College.

The Book-of-the-Semester Committee would like to quote in part from the letter by Mr. Warburg received last week: "I am most gratified that you have chosen *Reveille for Rebels* for the fall semester and regret that a recent operation made it impossible for me to do the assembly lecture. However, I am sure that my friend, Joe Barnes, will be a more than satisfactory substitute."

Albright students and faculty members should not deprive themselves of the opportunity of hearing this distinguished lecturer speak on the critical and controversial problems raised in *Reveille for Rebels*.

### WGAL-TV Filming On Campus

On Dec. 24, from 6 p.m. to 6:20 p.m., the Albright College Glee Club, under the direction of Prof. Lester R. Yeager, will present excerpts from Handel's "The Messiah". The presentation will be supplemented with a biblical narration by Chaplain William R. Marlow and will be broadcast over WGAL-TV, Channel 8, Lancaster, on "Doorway to Life".

The filming of the program will take place on Dec. 6 in the Albright Chapel-Auditorium. Besides the technical and engineering staff of WGAL, Leroy Withers and Professor Thurman Kremser will assist in the mechanical details of the taping.

### Help Repair Toys

Each night this week beginning at 7:00 p.m. a toy repair will be held in Krause Hall. Everyone, including faculty and students are invited to attend. They will repair everything from broken sleds to torn dolls. These will then be wrapped and put under the Christmas tree. Hot chocolate and cookies will be served to Santa's helpers.

Dr. George Reynolds

### Society Seeks Expanded Interest

The Skull and Bones Society would like to take this opportunity to be heard. This year seems to most of the older members as a year of rebuilding and improvement, for added interest has been shown in membership and in student participation. With half the semester having elapsed, the society has been quite fortunate in having two speakers of prominence in their prospective fields. The first speakers discussed "Ether and Its Role in Modern Day", and the second formidable speaker explained and discussed "Bacteria and Viruses". Questions such as "Is virus the cause of cancer?", "What role does ether play in anaesthesia?" were elucidated through these talks.

The remainder of this year and the subsequent semester will include an Orthopedic Surgeon, an Osteopath, a Dental Surgeon, and possibly one of our renown professors.

#### Climax of Year

The climax of the year will come with the banquet. We had planned on holding this outstanding event at the Latin Casino or Peppermint Lounge but due to their remoteness we will have to settle for a more down-to-earth place in close proximity to the Science Hall.

In conclusion, without our officers and Dr. Bell, our loyal adviser, the society would be in a grave state, therefore here they are: Charles Schleffer, '62, President; Kenneth Goldblatt, '62, Vice-president; Raymond Fraiese, '62, secretary; Frank Sentz, '62, secretary.

We'll see all of you next meeting, December 6!

### IRC To Stage UN For High Schools

Natale De Luca, '62, president of the International Relations Club, announced plans for the 1961 Berks County High School Model United Nations General Assembly. It will be held Dec. 8, from 8:00 a.m. to 5:00 p.m. The opening and closing sessions of the general assembly will be held in the Merner-Pfeiffer-Klein Memorial Chapel-Auditorium. The committee meetings and caucus sessions will be held in the classrooms downstairs.

The Secretary-General will be Natale DeLuca. Members of the International Relations Club will make up the Secretariat which handles the secretarial work, such as the mimeographing of revised resolutions. The Chairman of the Secretariat will be Bonnie Price, '62. The president of the general assembly and the three committee chairmen will be chosen from the high school students.

#### 12 High Schools

This seventh Model UN, which is sponsored by IRC, will be attended by the students of 12 of the high schools in Berks County. The 140 students participating will represent 33 countries of the UN. Each of the four major blocs; the NATO bloc, the Soviet bloc, the Afro-Asian bloc, and the Latin American bloc, will be represented by several countries.

The agenda of the Model UN will be Angola, Berlin, and general disarmament emphasizing nuclear disarmament.

At the final session of the Model General Assembly a trophy will  
*(Continued on Page Three)*

# Comments On The Corps

On a cold and snowy January morning, President John F. Kennedy stirred the latent genius of American youth by saying, "Ask not what your country can do for you—ask what you can do for your country." The newly created Peace Corps has adopted this inaugural excerpt as a sales slogan to draw young Americans to the "long twilight struggle . . . a struggle against the common enemies of man; tyranny, poverty, disease and war itself". This noble appeal to arms has not gone unheard. The response to the Peace Corps has been more than encouraging to those who feel that the zeal of our foreign aid program has declined. Yet, while we may be encouraged by the enthusiasm evidenced by American youth for the Peace Corps, we must not sacrifice our long-run national interest for rediscovered patriotism, patriotism that could easily become a frenetic approach to a situation which demands calm deliberation and decisive action.

### Basic Aim

In fairness to the Peace Corps, I believe it should be stated that the basic aim and purpose of the Corps is sound—the mitigation of world poverty. Essentially, the Corps is directly involved in the economic development process. It is unique in relations to other foreign aid programs because its primary emphasis is on trained manpower. However, a source of manpower in itself is meaningless without a fusion with predetermined plans for economic development. The inherent dangle in the Peace Corps is a loose deployment throughout the world without any relation to economic development policy. Because the Peace Corps is an independent agency in the Department of State, this danger is very real.

The sincere critics of the Corps cite its organization independence as a major weakness. Even though Sargent Shriver, head of the Peace Corps, reports directly to Dean Rusk, nevertheless the Corps has been allowed to follow a somewhat independent course in meeting requests from abroad. This country has almost 200 foreign aid projects in 81 foreign nations not counting an equally large number of private projects sponsored by organizations outside the government. Recently, the President has ordered all foreign projects to be fused in one organization, Agency for International Development, under a single head. Behind this move is an obvious attempt to alleviate overlapping by numerous State Department Agencies and generate a movement forward to predetermined economic goals.

### Foreign Aid

The role of the Peace Corps ought to be related to these foreign aid projects already underway. It could easily become the major source of trained manpower filling the needs of a mammoth, but centrally controlled foreign aid program. To transform the Peace Corps into a recruitment and training organization under the direct guidance and control of those who are negotiating and planning foreign aid programs could indeed be a step forward efficient allocation of manpower resources.

However, the Peace Corps seems to be following an independent course. Spokesmen for the Corps who have visited our campus have declined to engage in any discussion which reduces the growing

# Lyceum Features Dr. Alexander

A Labor Lyceum Forum will be held Dec. 10, at 8 p.m. in the Central Y.M.C.A., 631 Washington St., Reading. Speaking will be Dr. Robert J. Alexander and his topic will be "Revolution in Venezuela".

Alexander is Professor of Economics at Rutgers University and a specialist in Latin American affairs. He lived in South America for a year collecting data for his doctor's thesis.

Albright students are invited to hear Dr. Alexander.

sacrosanct image of the Corps. One spokesman flatly stated that the Peace Corps was "above politics" and ought not be associated with propaganda. The spokesman defined propaganda as the releasing of information and stated that this task belongs to Edward R. Murrow and the United States Information Agency.

Anyone actively engaged in the foreign policy complex seriously advocating removal from the battle for the minds of men is declaring a reckless commitment which undermines our national interest and the interest of all free men. No man fully aware of the nature of the focus at work in the twentieth century can consciously separate himself from the struggle for power. While it is true that the world needs to see a new breed of Americans, it is not sane to advocate a new breed of pure forms operating as ideological vacuums too sacred to compete for power. To feed the opposition which survives and grows in the political process a pure American form is just as devastating to the national interest as sending troops to war without weapons.

### Alexander Hamilton

It would be well for us all to reconsider the advice of a founding father who lived at a time when this country was an underdeveloped nation. The advice was that of Alexander Hamilton who said, "the first duty of the state is self-preservation". Hans J. Morganthau interprets Hamilton's doctrine by saying "the sole guiding light for policy makers is the national interest". Applied to the Peace Corps and all other foreign aid projects as well, Hamiltonian advice would necessarily force us to conclude that foreign aid personnel must dedicate themselves to a realistic pursuit of power. It is our hope that through the economic development of underdeveloped nations the tide running against us can be halted. To state as a matter of policy that we have no interest whatsoever in communist expansion abroad and pursue that policy, we will destroy ourselves as a nation and those who look to us for leadership.

# Court Spruces Up For Open House

It is not unintentional that the Court-dwellers are beginning to think about sprucing up their living quarters, for on Monday, Dec. 11, their doors will swing open at 7:00 p.m. and close at 11:00 p.m.

The whole campus body, including the fairer sex, is welcome to come by to partake of the evening's festivities. A musical delight is in store when a Jazz band gets into the swing of things for entertainment, and on top of that, refreshments will be served.

The guests may also inspect any or all of the rooms.

Stop by and enjoy a night at the Court.

(Continued from Page One)

in cosmic rays at the Imperial College, London, under Professor P. M. S. Blackett on a Guggenheim Fellowship. There he continued his studies of the new unstable particles—hyperons and heavy mesons—found in cosmic rays, with particular emphasis upon detection schemes for their observation.

In his laboratory work at Princeton Dr. Reynolds introduced the liquid scintillator, now a valuable tool for nuclear and cosmic ray research, biological and medical research, and particularly useful for the construction of large detectors such as the one at Los Alamos. It permits the measurement of two unconnected events separated in time by as little as two-billionths of a second. In 1957-58 the filament scintillation chamber was developed in this laboratory, providing for the first time a device to make visible with very precise timing the track of an ionizing particle.

Dr. Reynolds has written articles for *Physical Review*, *Nucleonics*, *Review of Scientific Instruments* and *Nuovo Cimento*. He is a Fellow of the American Physical Society, was a member of the Board of Directors of the Inter-University High Altitude Laboratories Association, Board of Editors of the *Review of Scientific Instruments* (term 1955-58), and member of the Panel for Radiation Physics Advisory to the National Bureau of Standards.

# Greek Vine

Friday night, Dec. 1, the Pi Alpha Tau social sorority held its annual rush dance at the Reading Country Club from 9 o'clock until 12 midnight. Under the co-chairmanship of Barbara Davis and Ricci Wagner, the affair proved to be quite successful. The unique theme of "Down Mexico Way" was carried even to the intermission entertainment when President Fay Binkley broke open a traditional Mexican piniaata.

Also during the intermission, Karen Birdsong, Karen Chamberlain, Valerie Hoffman, Cookie Kullich, and Faythe Phillips, the five recently inducted sisters of Pi Alpha Tau, were introduced and presented with certificates. The chaperones and guests were Mr. and Mrs. Ward Price, Mr. and Mrs. Harold Jordan, Mr. and Mrs. Roberts, and Miss Peggy Adams, president of the Phi Beta Mu social sorority.

Decorations were planned by Renée Guiney and Judy Rigby; programs, by Marla Cisarik and Pat Ney; refreshments by Sally Hottenstein and Carolyn Much. Mistress of Ceremonies was Barbara Wilcox. Music for the dance was skillfully provided by the Harold Kremser Band.

December 4, the Pats combined with the Mus to hold the yearly Rush Night at the sorority houses. The open house for freshmen and transfer students ran from 8:30 until 10 o'clock.

**Book Review**

**Tropic Of Cancer**

By ROBERT MATTHEWS

"This is not a book. This is a libel, slander, defamation of character. This is not a book, in the ordinary sense of the word. No, this is a prolonged insult, a gob of spit in the face of Art . . . God, Man, Destiny, Time, Love, Beauty . . . what you will." H. Miller.

Written in a free-flowing stream-of-consciousness manner, this book is an honest and, more often than not, disturbing—but frank creation. You are exposed, autobiographically, to the stark realism of a demented American expatriot striving and starving in the slums of Paris in the late twenties. So completely is the mind of the author exposed and dissected for examination that you are able to sense compassion, understanding, and hatred for this man—all in the same breath.

Much of what Miller discusses in *Tropic of Cancer* strikes initially with the force of shock: The author, while in bed with his girl, vividly describes "the beauty of her wild hair" as enhanced by the pale light of the morning. Then in an unexpected reversal he tells you that "he suddenly feels something crawling down his neck. Her hair is alive . . . swarming with lice!" However, such is that nature of life itself which does not shelter us from unexpected harshness in human experience.

**Exploits in Bed**

Miller writes countless pages describing in the minutest and clearest detail his exploits in bed. I could go on at great length in this vein with *Tropic of Cancer*, but, by the above extraction, I believe the reader will get a sufficiently clear feeling for Miller's style, even from this single example. However, the book contains similar scenes of which the greater percentage are even stronger in nature.

To my mind, it was Miller's attempt to make a sincere and honest effort at showing exactly how his mind operates. If he did not attempt to be honest in following through with his chosen task the result would be misleading and thus unfaithful to his adopted technique.

**Loyal to Goal**

It is because Miller has been loyal to this goal and has not shirked its necessary implication, but has honestly attempted to reveal fully what he thinks about, that his book has become subject to so many attacks and that his purpose has been misunderstood and misrepresented. For his attempt sincerely and honestly to realize his objective has required him to use certain words which are generally considered dirty words and has led at times to what many think is a too poignant preoccupation with sex in his thoughts. But again, you should take into consideration—setting and circumstance: Parisian slums, and a starving, bothered individual. "I haven't any allegiance, any responsibilities, any hatreds, any worries, any prejudices, any passion. I'm neither for nor against. I'm a neutral." Confused? ". . . to be human seems like a poor sorry, miserable affair, limited by the senses, restricted by moralities and codes, defined by platitudes and isms." Angry? "I'm telling them everything that comes to mind, everything that was bottled up inside me . . ."

Whether or not one enjoys such a style as Miller uses is a matter of taste on which disagreement or argument is futile, but to subject that technique to the standards of some other technique, seems to me to be little short of absurd.

The meaning of the word "obscene" as legally defined by the Courts is: tending to stir the sex impulses or to lead to sexually impure and lustful thoughts. Because the scenes dealing with sex in a

**Letter To The Editor**

Dear Sir:

It is my opinion that the Albright College Library is one of the finest in which I have worked. Therefore, I note with some concern that some individuals are misusing the facilities in the library. Recently the study desks, technically referred to as carrels, were removed from the second floor of the library because some individuals had imbedded what seem to be private messages upon them. I am under the impression that the library is for the use of all Albright students, and other persons doing research, who from time to time are permitted to use the good resources which we are fortunate to have, therefore I can see no reason why some individuals feel they have a right to impress their private messages on public property.

In addition, some individual tied two of the sliding shelves together so that a student who wanted to use some of the books found herself showered with heavy volumes when she withdrew a shelf. She could have been injured, but fortunately she was not. No restrictive action has been taken on this count as of yet, but as I see it, if such misuse continues there might possibly be some taken. May I point out here that some libraries do not permit students to browse in the stacks; the librarians and only the librarians are permitted to go into the stacks to obtain the books sought by the student. This precludes the possibility of the students finding a book or several books which might otherwise go unnoticed. Now I do not mean to say that this course will be followed here, but if misuse of the library continues it could possibly occur here. I would not like to be deprived of the benefits which our library offers to us, nor do I think others would enjoy it. Nor would I enjoy a librarian turned policeman peering over my shoulder to see if I were stringing shelves together or cutting a chapter from a book. I think that if we value our library and our privileges there it would be wise for us to act accordingly.

Bonnie Price

**Choir Inspired Everyone**

On Sunday night, Dec. 3, in the Merner-Pfeiffer-Klein Chapel Auditorium, the campus was treated to an inspiring concert by the Inter-Fraternity-Sorority Choir under the baton of senior PI Tom Jack Grove. Jack and the choir in conjunction with the Y Faith and Heritage Commission presented a program of Christmas music. The program was well received, and the campus is looking forward to other presentations from the choir.

**IRC**

(Continued from Page One)

be presented to the best delegation. The delegation will be scored on how well it represents its nation and the nation's policies in the general assembly and the committee meetings; their familiarity with the rules of procedure and the proper use of them; and the form of their resolutions.

During the last month, members of IRC have been visiting the participating high schools. The purpose of these visitations was to explain the rules of procedure, how they should write their resolutions, and to answer any questions which they might have. The resolutions are the proposals of the countries and follow their policies. Each country will have resolutions pertaining to the three problems on the agenda.

normal or perverted manner are so vividly detailed I cannot find it an effective style towards excitation. If it was Miller's intent to sexually excite I think "subtlety" would have been the applied technique. This appears to be the intent in so many cheap paperbacks now on the newsstands. Is it what you see, or rather, what is implied, that generates the greater amount of curiosity and fantasy?

I am quite aware that owing to some of its scenes, *Tropic of Cancer* is a rather strong book to ask some sensitive, though normal, persons to take. However, I do not believe that it is a book which tends to excite sexual impulses or lustful thoughts but that its net effect is that of a somewhat tragic and very powerful commentary on the mind of a disturbed individual.

# Lions Rout Wilkes In Season Opener Travel To Palestra To Face LaSalle

Above are the 1961 Lions who finished unbeaten for the second straight year by swamping F. & M. 46-0 to close out the season. Front row, left to right, George Seighman, Eugene Alfiero, Gary Chapman, Gary Sheeler, Tom Olivo, George Reagan and Steve Simon; second row, Rod Duckworth, James Huie, Don Rietsch, Harold Buck, Mike Morano and Robert Guglielmino; third row, Clayton Snear, Robert Kopp, C. T. Miller, Bernard Shutt, Irv Godbolde and Ralph Lindley; fourth row, Tom Griffie, Donald Manlove, Wilbert Leonard, Lew Nevins, William Bors, David Rees and Otello Riccio; fifth row, Douglas Deicke, Donald Hartman, Ronald Limoli, Jon Paris, William Savage, Donato D'Apolito and Michael Gaito; top row, James Doremus, assistant coach; John Potskian, head coach, and Robert M. Ford, assistant coach.

## Lions Finish Unbeaten Season; Chapman, Olivo, Deicke, Simon Sparked Team To 7-0-1 Record

By virtue of their smashing 46-0 victory over Franklin and Marshall College, the Lions wrapped up another unbeaten season. The Lions have now gone 21 straight games without a defeat. Only an 8-8 tie with Moravian mars an otherwise perfect record. The victory over F. & M. also put Coach John Potskian at the 500 mark in his Albright coaching career. Potskian has now won 30 games and lost 30 games with three games ending in a tie.

Gary Chapman, quarterback; Tom Olivo and Doug Deicke, halfbacks and Steve Simon, end, were the statistical leaders for the team. Chapman completed 56 of 105 forward passes during the season, gaining 1,013 yards and passing for

15 touchdowns. Seven of his aeri- als were intercepted. In his farewell appearance, the 5-11, 180 pounder extended his streak of at least one touchdown forward pass per game to 18 contests. During his four-year career, Chapman completed 191 of 359 pass attempts, gaining 3,290 yards and getting 42 touchdown strikes. Opponents intercepted 28 of his passes. Gary had a 53.2 per- centage on passes completed and averages 17.2 yards per each completion in his four years with the Lions. He hit his peak with 65 completions in 117 tries, gaining 1,091 yards and 17 touchdowns in 1960 when the team posted their first undefeated, untied record in history.

Olivo topped the backs in rushing

yardage for the second straight season. He gained a net 534 yards in 100 carries for a 5.3 average. Dave Rees, freshman fullback was next in rushing yardage with 301 in 78 carries for a 3.8 average.

Deicke was third in rushing with 292 yards in 64 carries and a 4.5 average. He also led the team in individual scoring with 57 points on seven touchdowns and 15 extra points.

Olivo was runner-up in scoring with 54 points on nine touchdowns. Tom set an Albright career scoring record of 210 points for four years erasing Dick Riffle's three-year mark of 180 points.

### Simon on Offense

Simon, a defensive specialist in 1960, took over on offense at an end spot and caught 19 forward passes good for 333 yards. The sophomore scored five TD's. Aid Gary Sheeler was next with 18 catches, 286 yards and four touchdowns, while Olivo was third, 15 catches, 307 yards and three six pointers.

The unbeaten Lions gained a net 1,708 yards in 407 attempts for a 4.1 average, and gained 1,117 yards on 63 of 118 aeri- als for a total of 2,825 yards. Opponents were limited to 656 yards rushing, 536 yards passing and a total of 1,192 yards.

In the farewell triumph over F. & M., Chapman threw touchdown passes to Simon, Sheeler, Deicke, and Olivo. Deicke and Olivo each scored two touchdowns while the seventh touchdown of the game was made by Clayton Snear.

Albright finished with a 4-0-1 record in the Northern College Division won by Susquehanna. Lebanon Valley wrapped up the Southern Division.

Six seniors played their final game for Albright. They were Chapman, Sheeler, Olivo, Reagan, Seighman, and Alfiero.

## Bautsch, Holzinger, Pearsall And Sommerstad Set Pace

Fresh from their opening night slaughter of Wilkes College by a 95-55 score, the Lions will travel to meet a highly touted LaSalle team tomorrow night in the University of Pennsylvania Palestra in Philadelphia. Game time is 7:30 p.m. Following the Albright-LaSalle contest, the University of Pennsylvania will be paired with the University of Michigan in the doubleheader attraction.

Coached by veteran Duddy Moore, LaSalle promises to be one of the toughest opponents on the Lions schedule. In their opener this year, they smashed Millersville State College by a 102-62 score. Moore is basing his hopes for a MAC and Big Five championship on such talented

lettermen as Bob McAteer, Bill Raftery and George Friedrich along with sophs Frank Corace and Walter Sampson. Last year the Explorers defeated the Lions by a 65-62 score with Raftery pouring in 26 points for his team while Tommy Pearsall contributed 24 marks for Albright.

### Wilkes Game

In their game against Wilkes, the Lions were led by Ray Sommerstad with 19 points. He was followed by Bob Holzinger with 16, Tom Pearsall, 14, and Norm Bautsch, 13. The Albrightians got off to a slow start and saw the Colonels leading 14-10 after six minutes of play. Coach Will Renken then switched his defense from man to man to a zone and Lions forged into the lead which developed to 42-27 by half-time. Midway through the second half, with the reserves in action, the Lions opened up a forty point lead which they never relinquished.

In the preliminary game, the team from V & S Sandwich Shop of Reading defeated the Albright Junior Varsity 73-61. Grant Krow led the Baby Lions with 17 points while Bruce Ricketts was next with 12. Tom Davis and Ricketts also saw action during the varsity game.

### Next Saturday

The Lions next home game will be this Saturday night when they will play host to Gettysburg College. Last year the Bullets defeated Albright, 75-64 at Gettysburg.

## Pi Tau Beta Takes V-Ball Championship

For the second straight year, the Pi Tau Beta Fraternity captured the Intramural Volleyball Tournament which was held in the Field House last Thursday night. At the end of competition, the Pi Taus were tied with the Daymen with four wins and one loss. In a play-off game, the Pi Taus were victorious by a 15-12 score to give them the championship.

Members of the Pi Tau team were Grant Krow, Warren Kronenberg, Barry Goodhart, Richard Hess, Tom Katancik and Dennis Hepner.

Members of the Daymen team who finished in the runner-up position were Phil Calabria, Bob Kopp, Bob Miller, Larry Kirk, Bill Koch, Jeff High, Irv Godbolte and Jay Spancake.

Final standings were as follows:

Pi Tau	5-1
Daymen	4-2
Zeta	3-2
SPO	2-3
Kappa	2-3
Dorm	0-5

Albright			Wilkes

## Albright Teams To Be Honored

Albright College will establish a new record in the awards winning department at the Chamber of Commerce sports banquet, tomorrow night in the Abraham Lincoln Hotel. The school will receive a special award in recognition of its 21-game unbeaten football record compiled during the past three seasons.

Team awards will go to the school's 1960-61 varsity basketball squad for winning the championship of the Middle Atlantic Conference college division, and the 1960 baseball team for annexing the championship of the NAC Northern Division.

The Chamber will also present a special award to John Potskian for his work in developing outstanding athletes and teams at the college.

Coach Renken's 1960-61 basketball squad won 19 and lost nine to win their title. In baseball, the Albrightians won 11 and lost five for the best record in the MAC.

Speaker of the evening will be Jim Honochick, veteran American League umpire.

### FINAL 1961 STATISTICS
