

## High Lights On Girls Glee Trip

### Monday

The bus was to leave Harrisburg at 2 o'clock, but Jonsey held up the works by arriving just 40 minutes late. After a peaceful trip, marred only by Eva and the toll keepers little "act" the club arrived at Danville. We had our first concert which went off in fine style minus the ink spots on the carpet and Sally's robe (?!?) Sally loses her frat pin in the back yard, but Mil rescues it safely.

### Tuesday

The Club visited the State Asylum at Danville, and the bus driver seemed quite surprised to see us all get out safely. We journeyed to Milton, where we were greeted by a sunny smile from Rev. Steely, which, we learned later, was not entirely for us. Amid the "ohs" and "ahs" of admiration over the beautiful church, and Dechie moaning about the new piano we were sent to our homes and judging from the effects we all ate enough. After the concert we gave the town the once over, and even though Clara and Gookie got in the "colored section" they eventually found their place.

### Wednesday

We sang at the Milton H. S. after which some of us worked off our surplus energy by jumping rope. We were quite surprised to find that Jonsey's "rheumatics" had entirely

left her. Miss Strassner, Blanche, Flo and Steltzie went to the Lewisburg Home and a lovely time was had by all. We left for New Columbia late in the afternoon and found that we were all to eat together at the parsonage. We did eat and from that time forth the club was never the same. Ask any member for full details.

### Thursday

We again ate at the parsonage, after which we were soon on our way to Jersey Shore. By the time we arrived at Jersey Shore it was raining and we finally got to our places, after much slipping and sliding around in the mud. Dechie and Steltzie were overjoyed! At last they had what they were looking for all week. They arrive at the concert bright and shining. Flo shows her master mind by singing new words to a sacred song and Gookie gets weak and drops her music. After the concert Eva, Jonsey, Flo and Flora visited Lock Haven and would have enjoyed themselves better if it had not been for a flat tire and a mud bath. See any one of the girls here mentioned for details.

### Friday

We sing in the J. S. H. S. after which we were entertained by the gym class. We left for Lock Haven and arriving too early we went to a movie, after which Gookie and Eva get the doors mixed, but Eva soon recovers after some assistance. We were tired, and after the concert everybody seemed anxious to try out their beds.

### Saturday

Thank heavens there was no

school on Saturday! We all slept in and all arrived at the bus on time—even Jonsey and Flo. We were greeted by the Stahl family at Millifinburg. After the concert we saw the various and extensive sights of the town, with Caroline Mowery as a guide. Maud and Dora Elizabeth seem to have had a good time also.

### Sunday

We sang in church and Dechie was gyped because she had to put collection on the plate and the rest of us didn't. On our way to Lewistown in the afternoon we had a flat on the back, right, inner tire. We gave a concert in the beautiful new church with an audience of about 600. Even though Mildred did fall up the steps she seemed to be alright otherwise.

### Monday

We sang at the H. S. at 8 o'clock in the morning. Imagine that!!!! Cricket and Marty had a hard time to get out, but it had to be. Blanche vows never to use the words "Come in" too freely. Harry and Norma announce their engagement and amidst congratulations we started—Myerstown Ho!—The campus was beautiful and seemed to greet us with open arms. It certainly thrilled us through and through to be back at old Albright again.

## MUHLENBERG AND CEDAR CREST TO ENTERTAIN I. N. A.

(Continued From Page One)

town dailies, and probably the Executive Secretary of the Association, Professor James M. Lee, of New York University. Richard J. Beamish, special writer and an assistant editor of The Philadelphia Inquirer, will act as one of the judges in the associations contests, and a staff member of The Philadelphia Evening Bulletin will probably constitute the other judge.

Two silver loving cups will be presented to two member papers, which will win the two contests, which are run by the association, first, for the paper having the best journalistic style and make-up, the last issue before the convention is used in the contest, second, for the best editorial published during the term of the present Editor-in-chief, for this each member paper enters two editorials. The schools that won the contests last fall were Swarthmore and Haverford Colleges. A paper winning one of the cups three times in succession secures permanent possession of the cup.

## FRUIT PLEASING WITH MEAT DISH

The practice of serving fruit as an accompaniment for the meat dish or as part of the dish is a very happy thought, because the fruit adds its minerals and vitamins to the dish, making it just that much more valuable. The recipes below are suggestive of ways fruit may be used with meats.

### Red Apple Rings

3 large apples.  
1 cup sugar.  
1 cup water.  
1 tablespoon red cinnamon drops.  
Boil the sugar and water for five minutes. Add the cinnamon drops. Core, but do not pare the apples. Slice crosswise and simmer in the syrup until colored and tender. Drain and sprinkle with granulated sugar. Serve with baked pork chops.

**Beef Pot Roast with Prunes**  
Brown a chuck pot roast in fat in a hot kettle. Season with salt and pepper. Add 2 cups of boiling water and 3 dozen prunes, which have been soaked over night. Simmer until the meat is tender. Take out the prunes and season them with sugar and vinegar or lemon juice and serve them as a relish with the meat. Thicken liquid in kettle for gravy.

Druggist to old lady: "Oh yes, Madam."

Old Lady: "Well then please give me a postage stamp, and some gum drops."

## Conquering the Cascades

SNOW falls every month in the year where the Great Northern crosses the Cascades. Steep, tortuous grades increase the difficulty of the railroading problem. Nature has stubbornly resisted man's effort to conquer the range.

In January, 1929, the new Cascade tunnel was opened. Man, with electricity as an ally, had conquered the Cascades.

The eight-mile bore was driven in three years—a

record impossible without electric power. And electrification has been extended to the entire 75-mile route through the mountains.

The conquests of electricity on the land and on the sea, in the air, and underground, are making practicable the impossibilities of yesterday. As our vision encompasses wider horizons, electricity appears as a vital contribution to future industrial progress and human welfare.

## AN IDEAL VACATION JOB

SHOULD BE PROFITABLE, ENJOYABLE, AND EDUCATIONAL

Students are earning exceptionally good wages selling Donald Brushes. In many instances students have earned more than a year's expense at College, during the three months of Summer Vacation.

Students find selling Donald Brushes a pleasant occupation.

Salesmanship as learned by actual experience in the selling field will be of great value later in your professional life.

The Donald salesman is able to offer real service to housewives as the highest quality material and workmanship go into the manufacture of all Donald Products. Every Donald Brush bears our trade-mark of Quality, is fully guaranteed and endorsed by the Good House Keeping Institute.

A letter of inquiry will bring details of our proposition to students.
